

SCHOONER IS WRECKED; 2 DROWN, 10 ARE SAVED

CORINTHIAN, EN ROUTE TO SAN FRANCISCO, IS BEACHED WHILE CROSSING HUMBOLDT BAR

LAWMAKING IS ENDED AT NOON TO-DAY

Session of Legisla-
ture Has Passed
65 Bills for
Approval.

SACRAMENTO, June 12.—The special session of the California legislature, convened by proclamation of the governor on Saturday June 2 ended a few moments after noon today, having considered and passed upon the subjects included in the proclamation.

Both houses were engaged in the transaction of business almost up to the last moment, and the members, in their anxiety to start homeward, omitted the customary formalities, the session ending as simply and quietly as it had commenced.

BILLS PASSED.
As a result of the eleven days devoted to legislation, the governor has received sixty-five bills passed by both houses. Fifty of these await his approval and the others, including the measure providing for a \$500,000 state building in San Francisco, which was signed this morning, have already become laws.

The assembly completed consideration of all matters on their list this morning, and just before the hour of noon the message of Governor Pardee was read in both houses.

On behalf of the San Francisco delegation, Assemblymen McGowan and Creighton thanked their colleagues in the lower house for the time they had devoted to legislative framed for the assistance of San Francisco.

SHORTIDGE'S ADDRESS.
After a brief address by Shortridge, thanking Lieutenant Governor Anderson, and a reply by the president of the senate, the senate adjourned sine die at 12:10.

In the assembly there were brief addresses by members from the interior, with speeches by the San Francisco delegation. The clock was stopped, and while the record showed sine die adjournment at 12 o'clock, it was actually 12:45 when the speaker's gavel fell in token of dismissal.

SACRAMENTO, June 12.—Governor Pardee sent the following message to both houses of the legislature this morning shortly before the adjournment:

"To the senate and assembly—Gentlemen: Now that you have reached the conclusion of your labors in the extraordinary session called as a consequence of the late unparalleled disaster, it gives me great pleasure to address you, before final adjournment is taken, a few words of acknowledgment and congratulation.

RISEN TO THE OCCASION.
The senate and assembly were called together for the purpose of meeting, by legislation some of the new conditions so suddenly created and of preventing certain threatening dangers. Measures which had been suggested and to which I directed attention in my message, were emergency measures, calling for prompt and decisive action. It gratifies me to be able to say that the legislature has risen to the occasion, and by the promptitude and the vigor of its acts has proved itself competent to deal with the situation. It has furnished an example of diligence and devotion to duty which must long be regarded as a model. I do not believe there is any record of legislative bodies which have worked harder or accomplished more in a space of time

MILLIONAIRE COREY'S WIFE IN RENO, NEV. FOR DIVORCE

RENO, Nev., June 2.—Mrs. William Ellis Corey, wife of the president of the United States Steel Corporation, this morning filed a petition in the Second District Court of Nevada at this place for an absolute divorce.

The petition of Mrs. Corey is brief, reciting that she was married to Corey on December 1, 1883, and that he abandoned her about May 1, 1905. She asks for a decree upon the ground of desertion and also requests that the custody of their minor son be given to her.

The petitioner has retained three attorneys of Reno to prosecute her case and Corey will be represented by Pittsburg and Nevada counsel.

Sardis Summerfield, representing Corey, stated this morning that he did not know whether his client would oppose the petition or not.

It is currently reported that negotiations are in progress which will result in Corey giving his consent to the divorce and his settlement upon his wife of an independent fortune. The attorneys decline to discuss this phase of the matter.

Mrs. Corey is attended while in Reno by the mother and sister of the defendant. She declines to see newspaper men and pays no social visits.

As brief as that occupied by this session.

MEASURES STUDIED CAREFULLY.

"During the first two days of the meeting, five especially urgent measures were passed and became laws, safeguarding business interests which until that action was taken, could only be protected by proclaiming every day a holiday. In order that valuable rights might not lapse and be lost. In the eleven days which have passed since the legislature convened, more than sixty bills have been passed, and notwithstanding the brevity of the time in which this has been accomplished, I am convinced that these measures have been studied as carefully as legislative measures usually are. Some of the new acts are experimental in character, and necessarily so, because they are designed to meet conditions with which we have had no previous experience, and if imperfections should be developed it would not be strange, no foresight is keen enough to anticipate all possible difficulties, but I am satisfied that the legislature has done all which could have been done by any body of men working under the trying conditions which have confronted you.

SUBJECTS TREATED.
In my call for the extra session, I enumerated thirty-four different subjects to be covered by the enactment of statutes or the submission of constitutional amendments, and about thirty

(Continued on page 3.)

BECHTELL IS HELD ON A CHARGE OF MURDER

National Guardsman
to Face Trial for
Killing of
Riordan.

SAN FRANCISCO, June 12.—Police Judge Shortall this morning held Lawrence N. Bechtell, accused of killing Frank Riordan, to answer on a charge of murder. In holding the National Guardsman to answer the court remarked that if he were a juror he might look at the matter in a different light, but that he was only sitting as a committing magistrate and that he was compelled to look at the question of probable cause. For that reason he stated the defendant would be held to answer.

The circumstances surrounding the killing of Riordan were these: Riordan and a companion were walking along the street and came across a bunch of National Guardsmen taking goods out of a store at the corner of Octavia and Cedar streets. Riordan remarked that these fellows had never smelled powder, meaning the Guardsmen.

This remark was taken up by one of the soldiers, who started to fight Riordan. The civilian got the better of the fight and the soldier ran for his gun.

When Bechtell appeared to the scene Riordan and the soldier were struggling over the gun. Without warning Bechtell fired and Riordan fell mortally wounded.

DEATH YESTERDAY OF WILLIAM LUEDKE

William Luedke, a native of Germany, sixty-two years of age, died last evening at his late home, 1010 Twenty-fifth avenue. He had been ill but two weeks. He leaves a widow and four daughters.

BEAT HIS WIFE, STOLE THE CHILDREN

SAN FRANCISCO, June 12.—Lester Falkenburg was placed under arrest last night on a charge of battery preferred by his wife, Mable Falkenburg, who alleges that her husband not only beat her but robbed her of two of her children. The family formerly resided on Alameda street, but were burned out by the fire. They removed to Edinborough street. For sometime the husband has been abusive, according to the wife, and last night capped the climax when he beat her into insensibility and then stole the two children as a matter of spite. This is not the first time that Falkenburg has been in trouble.

Andrew McCarry, a University of California student who claimed to have been shanghaied from San Francisco and carried to Eureka, was one of the two drowned, when the Corinthian was wrecked.

SHOOTS MAN FOUND IN WIFE'S COMPANY

MR. AND MRS. AL MACDONALD OF PLEASANTON, THE FORMER IS ON TRIAL FOR THE MURDER OF A MAN FOUND IN HIS WIFE'S COMPANY.

Al. C. McDonald Is Placed on Trial on Charge of Murder.

The trial of Al. C. McDonald of Pleasanton for the murder of Joseph Mello was begun at 2 o'clock this afternoon. The case was called by Judge Harris and transferred to Department III and will be heard by Judge Ellsworth.

McDonald is a trainer of trotting horses and was handling a number of animals for various people on the track at Pleasanton. He was occupying a part of a house with his wife which was owned by Mello and in which Mello retained a room. One night he came home and states that he surprised Mello with his wife and that Mello rushed at him with a chair and that he shot in self defense.

McDonald is defended by Attorneys Asa Mendonhall and Robert Fitzgerald, while the case is prosecuted by Deputy District Attorney Phil Walsh.

CAUSES SENSATION.

The shooting created a sensation in the town of Pleasanton where all the parties are well known. Mello was in the plumbing business and had established himself in business after years of careful attention to the line of work in which he was engaged. His wife had died about a year previously and he was regarded as a man engrossed in his work and one of the last to have been mixed up in any affair with a woman.

McDonald is an active young man of about thirty-five years of age and has a large number of friends among the people who own fast horses, numbers of whom have been to see him since his incarceration and are anxious for him to gain his freedom. He has a good reputation and usually in the training of trotters.

THRILLING RESCUES

Excellent Service Is Rendered by Life-Saving Crews.

EUREKA, Cal., June 12.—While crossing Humboldt bar last evening and attempting to navigate through the south channel the gasoline schooner Corinthian, Walter Coggeshall, managing owner, Captain Atwater, master, took aboard a huge sea, causing her to become a total wreck. The disaster was marked by two fatalities.

THE DEAD.
ANDREW MCCARRY, student at the University of California.

OLE CARLSON, sailor.
THE RESCUED.
Captain Atwater.
R. M. Boyle, mate.
E. Edwards, chief engineer.
August Johnson, assistant engineer.
Ole Simpson, sailor.
Carl Amundsen, sailor.
Fred Johnson, sailor.
Peter Adage, cook.
W. D. Linton, passenger.
J. G. Linton, passenger.

ON THE BEACH.
The Corinthian is now upon the beach between the shipyards and New Era park, just beside the hull of the ill-fated steamer Newsboy, which was wrecked two months ago. Before the eyes of the vessel's willing but helpless hands, one poor sailor, Ole Carlson, was dragged down and out to sea by the strong ebb tide. Two others battled so stoutly that they were able to reach shore.

One was seized and landed safely by Alex. McLean of the McLean Launch Co., and the other, who had left all his clothing aboard, managed to crawl ashore himself, to receive attention and clothing and a good place beside a blazing bonfire.

TO SAN FRANCISCO.
The Corinthian, bound from this port to San Francisco, attempted to cross out of the harbor at 7 o'clock. A heavy sea was running and as the vessel reached the outer entrance she was struck by a coming wave which flooded the engine room and rendered her helpless. The little vessel became waterlogged at once and all hands were forced to take to the rigging.

A tug and life-savers were summoned from the shore as quickly as possible but the former could render no assistance. The life-savers could not launch their boat and were forced to fall back on their beach apparatus.

SAVED FROM WRECK.
By the time this was decided upon it was growing dark and rain began pouring down. The life-saving station is a long way off and the cart of apparatus was a heavy weight to drag over the sands and logs. It was just 8:50 when the life-saving crew arrived. They quickly unlimbered and placed their cannon on the bottom of the wrecked steamer Newsboy.

Considerable trouble was then had in getting a shot to fit. The doomed boat rolled and labored, pounding hard, while those on board were continually shouting for help. Finally a small line was made fast to the shot and at the third attempt was fired over the vessel. The men on board, grouped in a knot forward, heaved away on the line, hauling a big hawser aboard.

Out went the breeches buoy, and back it came with Assistant Engineer August Johnson. On the second trip first Officer Boyle was in the basket. The third time the buoy returned empty, to be immediately returned and again hauled in with an injured sailor. Fred Johnson, whose leg was broken while he was in the rigging. W. D. Linton came next and then

**RUCTIONS AT
SATHER PARK**

There was a ruction out at Sather

park, on the San Leandro road, yesterday afternoon, and two burly sons of the ancient Vikings, one a Norseman and the other a Swede, fought a fierce battle first with each other, and then with the officers who attempted to arrest them. Captain Hansen, a sailor on one of the bay craft is described as having finally made his escape on horseback, looking a veritable reproduction of Don Quixote after some of

the experiences in which he was rudely

buffeted.

Hansen's spurs, it is stated, first caused his downfall, for in the first fight some one stepped on one of them and caused him to fall. In the melee he was given a blow across the side of the head with a club, and when he rode away his head was bandaged with a towel covered with blood, his spurs clanking, and his mount, not unlike the famed Rosinante, making great headway under the urging of his master, who was crying "murder" at the top of his voice. The sight of this thunderbolt going down the San Leandro road in the dusk of the evening is said to have been both appalling and grotesque.

The name of the other combatant was Larsen, and the two came to blows at the bar connected with the park, where a picnic was being held by a Norwegian society. This fight was stopped by Constable Tom Carroll, who went in between the men like an umpire in a prize fight.

The arms of the world's greatest hammer thrower whirled like balls, and big as the fight was he forced them apart. It was at this juncture that Hansen's head was laid open by a stranger.

The wounded man was taken to one side to have his head bandaged, and while this was being done, Ike Herald and Arthur Leese, two deputy sheriffs, attempted to arrest the other participants in the fight, with the result that they were attacked by the crowd. One of the men whom they had already handcuffed was liberated, and in their extremity they called loudly for the assistance of Carroll, who hurried to their aid.

Hansen then mounted his steed, which was hitched near by, and made his get-away. When Carroll had finally succeeded in quelling the disturbance and rescuing Herald and

the other combatant, the two came to blows at the bar connected with the park, where a picnic was being held by a Norwegian society. This fight was stopped by Constable Tom Carroll, who went in between the men like an umpire in a prize fight.

**FATHER IS COMPELLED
TO CHOOSE WHICH SON
HE WOULD HAVE DIE**

ST. PETERSBURG, June 11.—A pathetic story comes to the Associated Press from Riga of the military authorities compelling a father, a veteran of the Turkish war, to choose between his two sons, who should be executed for participation in disarming a policeman, the authorities being unable to identify which brother was implicated. After the father had reluctantly selected the son and his execution had occurred it was discovered that the other son was the real culprit. The latter was arrested and is being tried by courtmartial.

**SUPERVISORS ACCEPT
THE BALLOT MACHINES**

The Dean Ballot Machine Company
Delivers Twenty-five Machines
to the Board of Supervisors.

Twenty-five voting machines, which were contracted for on July 5, 1905, with the Dean Ballot Machine Company of Minneapolis, were accepted by resolution at the meeting of the board of supervisors this morning. The cost price of the twenty-five

machines is \$16,250. The face of the machines is a fac simile of the Australian ballot sheets, the tickets being marked with an X as the tickets are voted. One of the machines which met with the favor of the supervisors is on exhibition at the hall of records.

**ACT ON
COUNTY
MATTERS**

The Board of Supervisors
Held Regular Meeting
This Morning.

When the question of taking up the matter of granting a franchise to the Western Pacific railroad along Putnam street and through the Derby estate property came up informally before the board of supervisors this morning prior to its regular meeting, an agreement was reached whereby the subject was laid over for one week. This was done at the request of Attorney Dudley Kinsell, representing Henry Root, a property owner of Oakland, and C. Leidecker, representing property owners along the proposed right of way in Brooklyn township.

Although no protest was filed by Mr. Kinsell on behalf of Mr. Root, it is estimated that such a protest will be prepared and placed before the board at its next meeting, provided no plans for a settlement have been reached by Mr. Root and representatives of the Western Pacific in the meantime. It is intimated that if Mr. Root's protest is not withdrawn on this contention that the Western Pacific tracks should enter the city over a private way and not on a public street.

Resolved, That the postponement of the following self-explanatory resolution, which was adopted at a recent meeting of Brooklyn township property owners could be further discussed.

"That it is the sense of this meeting that the Western Pacific railroad send a representative to wait on individual property owners on Putnam street. Where no agreement can be reached, that it be settled by arbitration said arbiters to consist of one selected by the Western Pacific railroad and one by the property owners the two to select a third to settle the amount of damages. And that a contract to this effect be entered into and signed by the individual property owners on Putnam street and the Western Pacific railroad, and upon said contract being entered into all opposition to granting the said franchise be withdrawn."

Resolved, That the opposition of the property owners on Putnam street be only withdrawn when an agreement to the same effect be entered into between the resident property owners living between Putnam street and the right of way of the Southern Pacific railroad, between Fruitvale avenue and High street.

At the regular session of the board which followed a petition signed by Newton Gray and fifty-six other residents of Elmhurst requesting the supervisors to provide in their annual budget a sufficient sum to maintain three arc lights on Orchard avenue at public expense was presented. Since August 1, 1904, the three lights have been paid for out of private funds, but as the private contract expires on August 1st next, the petitioners are desirous that the sum necessary to maintain the lights be provided. The petition was referred to the committee of the whole.

**TO END
MARINE
LOCKOUT**

Meeting Being Held in
San Francisco for
That Purpose.

SAN FRANCISCO, June 11.—Today an effort is being made to settle the lockout and strike that have tied up the water front for nearly a week.

This morning committees from the City Front Federation and the United Shipping and Transportation Association began a conference on board the steamer H. J. Corcoran. The City Front committee comprises Michael Casey, Thomas McConnell, A. C. Holmes, J. C. Williams and J. Keam. The shippingowners' committee is made up of J. R. Hanbury, E. R. Dimond, W. S. Peck, Captain Harry Goodall and R. P. Schwerin.

Both sides are in a conciliatory mood and it is very likely that an agreement will be reached some time today and paralyzed commerce be resumed. One of the committee said before the conference:

"I look for an early settlement of the difficulty. Concessions undoubtedly will be made by both sides, and shipping will become normal again."

Joseph Sprung at drawbridge No. 2; George T. Algeo of San Lorenzo and C. L. Powell of Santa Rita were ordered published as provided for by law.

Resolutions presented by Supervisor Horner transferring the sum of \$1246.72 from the county general fund of 1905-06 to the county infirm fund of 1905-06, and the sum of \$7600 from the general fund of 1904-05 to the county infirm fund of 1904-05 were adopted. This practically winds up the indebtedness of the infirmary.

Foundmaster Pedro of Fruitvale who had filed his resignation because of a complaint filed against him by A. J. Roberts, appeared before the board and was requested to remain in charge of his duties until such time as Mr. Roberts may appear before the board, at which time definite action will be taken in the matter.

The board instructed the county surveyor to prepare plans and specifications for grading, macadamizing and generally improving High street from the northern line of Precinct street, or the old county road, to Fruitvale creek in the Hamilton tract; also on the old county road from High street 1500 feet northward.

In the opinion of the county surveyor the proposed improvement will cost \$13,000.

**SENSATIONAL EVIDENCE
IN MURDER CASE**

STOCKTON, June 11.—The main witness in the prosecution in the Le-doux murder trial this morning was Dr. S. E. Latta, one of the surgeons who performed the autopsy upon McVicar. The doctor testified that the marks found upon the head of the deceased and supposed to have been caused by contact with the sides of the trunk as it was moved about, were made before death, and that the blood found inside the trunk and upon the clothing had flowed from the body before death. This is in line with the verdict of the coroner's jury that McVicar was alive when placed in the trunk.

The defense endeavored in the cross-examination of the witness to cast doubt upon whether McVicar was dead when the autopsy was begun and the questions along that line were very searching.

The witness stated that McVicar had been dead for some time, ten hours before the autopsy had begun.

Dr. Latta was still under cross-examination when a recess was taken at the noon hour until 2 o'clock.

ASSEMBLYMAN BURKE
DEFENDS OAKLAND

CAPITOL, Sacramento, Ca., June 11.—While discussing the bill authorizing San Francisco and San Jose to amend their charters without reference to the legislature, in the assembly this morning, Jones of San Francisco instituted a comparison between the harbor facilities of San Francisco and Oakland which was unfavorable to the latter.

He was taken to task by J. J. Burke of Oakland, who told of the great amount of business now done at the wharves of that city. He also showed that the harbor was nearly four hundred feet in width and that, daily, the largest sea-going vessels, discharged cargo and reloaded at the warehouses on either side at a distance of three miles from the mouth.

Jones said that he had not intended to be uncomplimentary to Oakland. Burke's speech was eloquent and was repeatedly interrupted by applause.

SPECIAL SESSION IS BROUGHT TO A CLOSE

Good Work Has Been Done by the Legislature While at Sacramento.

***** Although comparisons are seldom in good taste, it will not be improper to point out that the extraordinary session now closing has not only been the briefest but also the most efficient and least expensive of all of the five extraordinary sessions of the legislature of this state. In some instances those sessions have extended to nearly two months of time, while the session of 1900, the briefest until this one, lasted twelve days, as compared with the eleven days of the present session. Measured by the amount of work accomplished, the record is even more favorable, since the number of bills passed is more than twice as great as that in any preceding extraordinary session, although the time consumed has been so much less. As compared with a majority of previous extraordinary sessions, it may be said that this one has done twice the work in one half the time. Upon this record the legislature may rest content, and I feel sure that it will receive the public commendation which it so well deserves.—Extract from the message of Governor Pardee, delivered to the legislature this morning.

(Continued From Page 1)

of these subjects have been so covered. In the other instances, it has been decided, after careful deliberation, that it would be wisest not to act. In addition to emergency and remedial measures rendered necessary by the interruption to many forms of business, the legislature has passed the required acts of appropriation for state institutions which suffered serious damage, and for various courts, boards, commissions and officers, crippled by the loss of property.

PROCEEDING DELIBERATELY. "In the cases of several of the state institutions whose buildings were partially or totally destroyed, the provision made is temporary, because more thorough study is needed before it can be decided on what lines permanent reconstruction can best be attempted, and this determination to proceed deliberately is highly commendable. One of the important acts of the session is the making of a liberal appropriation for a state building in San Francisco, in which can be suitably housed the courts, commissions and officers hitherto accommodated in rented quarters. Another appropriation will provide for the reconstruction, at least in part, of the burned structures of the State Harbor Commission.

EFFECT ON THE LEVY.

It is a cause for especial congratulation that these and the other necessary appropriations, including one for the payment of expenses of the National Guard, have been made without compelling the alteration of the tax levy fixed at the last regular session. Thus the only increase in the state tax rate of the coming year over what had been expected when the levy was fixed will be that arising from the decrease of the assessment roll caused by the San Francisco calamity, and there is reason to hope this will not be great enough to raise the rate of tax-

ation more than a few cents above the normal rate. This good fortune is due to the prudence of the legislature manifested at the two preceding sessions by voting by taxation sufficient money to leave a good cash balance in the general fund, whereby it is enabled to stand the large extraordinary drafts now made upon it.

SUPERLATIVE IN EVERY WAY.

"Although comparisons are seldom in good taste, it will not be improper to point out that the extraordinary session now closing has not only been the briefest but also the most efficient and least expensive of all of the five extraordinary sessions of the legislature of this state. In some instances those sessions have extended to nearly two months of time, while the session of 1900, the briefest until this one, lasted twelve days, as compared with the eleven days of the present session. Measured by the amount of work accomplished, the record is even more favorable, since the number of bills passed is more than twice as great as that in any preceding extraordinary session, although the time consumed has been so much less. As compared with a majority of previous extraordinary sessions, it may be said that this one has done twice the work in one half the time.

"Upon this record the legislature may rest content, and I feel sure that it will receive the public commendation which it so well deserves.

"I congratulate you again and feel sure that your labors, so well performed, will result in great good, not only directly to the cities and communities that suffered under the great catastrophe, but indirectly also to the people of the whole state.

"GEORGE C. PARDEE, Governor."

The reading of the message was greeted with cheers. Adjournment sine die was then taken in both houses.

SCHOONER IS WRECKED

(Continued From Page 1)

board, and Linton confirmed his story.

MCCARRY DROWNS.

McCarry was in the galley, which was carried away by a sea and McCarry went with it. His two extended hands were seen as he sank. He was one of the non-union crew of the North Fork.

It is said he was shanghaied at San Francisco, and being in a hurry to get home, took passage on the Corinthian. The next man to come ashore was Chief Engineer Edward C. Webb.

There was another empty basket. On its being returned J. G. Linton, brother of the other Linton, was brought ashore. The next man to be saved was the cook, who told of University Student Andrew McCarry going over-

MORE REVENUE FOR OAKLAND

Last night, just prior to being granted a leave of absence from the state for sixty days Mayor Mott signed an amendment to section 2 of ordinance No. 1547, regulating dockage, loading and unloading of shipping, which increases the revenue of the city of Oakland. Hereafter under the ordinance grain, flour and millstuffs are exempt from state toll on the Oakland city wharves. By the amendment the city of Oakland is given a revenue similar to that derived by the state board of harbor commissioners in San Francisco.

The mayor also signed an ordinance appointing an additional police patrol driver. Up to the present time there have been but two drivers, and these were compelled to work long hours. By the appointment of a third driver an eight-hour shift will be scheduled. Another ordinance signed changes the official width of sidewalks on Sixty-second street between Baker street and San Pablo avenue.

Clarence P. Young, a native of Ohio, fifty-two years of age and a resident of Oakland for the past eight months, died yesterday afternoon at his residence, 910 Myrtle street, after a brief illness. He leaves a widow, one son and one daughter.

NOBLES MEET IN CONGRESS

Propose Only Two Methods for Relief of the Peasants.

ST. PETERSBURG, June 12.—The nobles congress now in session here has practically endorsed the government's agrarian program having declared itself against the forced expropriation of land and proposing only two methods for the relief of the peasants. These are purchases of land through peasants banks and transmigration to Siberia, especially commending the latter and recommending the granting of free land in Siberia and exemption from taxes for a period of years. The congress also endorsed the government's proposition for a dissolution of the commune system where it is desired.

SELFISH ATTITUDE.

An influential but small minority headed by Count Uvarov of Saratoff, protested against the selfish attitude of the nobility, urging unavailingly that the large landholders, if they wished to escape from utter ruin, must cede something to the country and at least consent to the expropriation of the surplus estates.

A strong effort is being made by the moderate liberals, who are being urged into a new party under the leadership of M. Yermolov, formerly minister of agriculture, and now a member of the upper house, to induce the emperor and court to attempt to compromise the situation by supplanting the Goremynkin ministry by a mixed cabinet chosen from the October party, the party of Democratic reforms and the Constitutional Democrats.

M. Shuvalov of Moscow, President Kusmin-Kavoff of Moscow, Maxim Kovalevsky of Kharkoff, and Count Heyden are suggested as the nucleus for such a ministry but there is no evidence that the emperor is ready to try the experiment.

On the contrary the straws point in other directions.

PROVINCIAL GOVERNORS.

Some of the provincial governors are openly continuing the agitation to discredit parliament and this morning the decoration of all the officers of the Semirovsky regiment who made themselves hated after the Moscow uprising was announced.

Although the crop reports of the entire western provinces including Poland, Rumania and the Black sea and along the Gulf of Finland are excellent, the latest reports from the Volga region indicate that Russia will not escape a famine. The harvest in that corner of the empire this year, especially in Kansas, Simbirsk and Samara, threatens owing to lack of rain, to be a complete failure. This is the region where the peasant agitation is most acute.

MISDEMEANOR CASES

IN THE POLICE COURT

Seventeen drunken appearances in police court No. 1 this morning. One was dismissed. Sixteen at the usual \$5 or three days. Charles William and William Nesbitt were sentenced to five days' imprisonment for violation of the sleeping ordinance. Carl Jeschen, arrested on a charge of failure to pay rent, was given \$100 and until July 13th to plead. A Schilling charged with battery on Policeman W. J. Smith had his trial set for July 26th.

LACE SHOES FOR EVENING WEAR.

Lovely woman must march now in shoes of Irish lace, says fashion's decree. At least she must wear them with evening dress and their closest friends, which means the stockings, must be silk inset with lace of the same costly material. To this no woman objects, if she "has the price," so short, fat feet and those extra long are adapting themselves to the tyranny of fashion. Some of the lace shoes, which are a revelation of what can be effected in this line have bodies of gold or silver cloth, which is visible through the peek-a-boo pattern and glistens when the wearer swings her toes. Tiny bows of gold or silver ribbon for the finish, the heels being covered with tissue to correspond.—New York Press

Charles Lyons

SAN FRANCISCO'S WELL KNOWN MERCHANT TAILOR, NOW PERMANENTLY LOCATED ON THIS SIDE OF THE BAY.

Charles Lyons, one of the leading tailors of San Francisco, who like many others lost their places of business in the San Francisco fire and came to Oakland to do business is now open to cater to those desiring well-made clothes to order. Mr. Lyons is a London and favorably known as "the London tailor" on account of the exclusive styles that emanate from his own ideas. He always carries a varied and extensive line of imported and domestic cloths and reasonable prices, good workmanship and a perfect fit is his motto—three essentials necessary to meet the requirements of patrons. Mr. Lyons is the manager of the Oakland store which is located at 958 Broadway, and was formerly manager at 203 Kearny street, San Francisco, for over nineteen years. T. J. Sullivan will be the cutter at the store in this city. Mr. Sullivan is formerly of New York City and is considered one of the best in his line in the country. The principal place of business of Mr. Lyons will be in San Francisco, the location being at 1432 Fillmore street. The Oakland branch will no doubt receive a most lucrative patronage from its inception.

CONSIDER ITS NEW MEMBERS

Governor Pardee Tells of Executive Board's Appointees.

Special to THE TRIBUNE.

SACRAMENTO, June 12.—Governor Pardee sent in a number of appointments to the senate for confirmation yesterday afternoon, but the list was disappointing to those who expected that positions carrying with them some political significance would be included. In the main, the offices referred to were such for which there is usually very little contest and which are sought in the main because of the honor instead of the emolument attaching to them.

The list is not complete because it does not show the positions which are vacant and which are temporarily filled by incumbents whose terms have expired and who are simply holding over until they are reappointed or until some other persons shall be designated to take their places. Among these may be mentioned the position of harbor commissioner, held by John Mackenzie, the regentship of the University of California, held by Charles Wheeler of San Francisco, and several others.

The governor asked the concurrence of the senate in the appointments, all of which had been made since the last session of the legislature.

The list is as follows:

April 7, 1905.—Trey L. Ford of San Francisco, a member of the state board of prison directors, vice R. M. Fitzgerald, term expired.

April 16, 1905.—J. F. Campbell of Maxwell, a trustee of the state normal school at Chico, vice Richard Belcher, resigned.

September 21, 1905.—Thomas Addison of Berkeley, a trustee of the state normal school at San Jose, vice self, term expired.

April 7, 1905.—J. M. Allen of San Francisco, a trustee of the state normal school at San Francisco, vice Frank W. Morrison, term expired.

November 14, 1905.—George I. Cochran of Los Angeles, a trustee of the state normal school at Los Angeles, vice C. D. Willard, resigned.

November 14, 1905.—John Wasson of Pomona, a trustee of the state normal school at Los Angeles, vice self, term expired.

May 29, 1905.—S. C. Irving of San Francisco, a director of the California Home for the Care and Training of Feeble Minded Children, vice William Thomas, resigned.

November 4, 1905.—Frank M. Wilson, of Berkeley, a director of the California Institution for the Deaf and Blind, vice John G. Mattos Jr., resigned.

January 30, 1905.—C. C. Desmond of Los Angeles, a trustee of the Whittier state school, vice Walter Lindley, resigned.

May 22, 1905.—Eugene De Burn of San Diego, a member of the board of state harbor commissioners for the bay of San Diego, vice self, term expired.

August 14, 1905.—Herman Silver of Los Angeles, bank commissioner of the state of California, vice self, term expired.

October 6, 1905.—N. Blackstock of Ventura, a bank commissioner of the state of California, vice self, term expired.

April 5, 1906.—E. Myron Wolf of San Francisco, insurance commissioner of the state of California, vice self, term expired.

November 10, 1903.—Robert Wankowski of Los Angeles, brigadier general, first brigade, National Guard of California.

June 18, 1905.—John A. Koster of San Francisco, brigadier general, second brigade, National Guard of California.

Immediately after the adjournment yesterday afternoon, the Republicans of the senate held a caucus, at which Senator Leavitt presided.

PEOPLE INJURED IN FIRE

Property Worth Half Million Destroyed in New York.

NEW YORK, June 12.—Property valued at more than half a million dollars was destroyed, nearly a score of persons were injured, and many persons were forced to flee from their homes in scanty attire in the block bounded by Bergen and Brook avenues and 147th and 148th streets, the Bronx, early today. The principal loss falls on the Stuyvesant and Wheelock Piano Companies, and Charles Riegers Sons, makers of bank and store fixtures. All of the injured are firemen. They were victims of minor accidents during the progress of the blaze and none was fatally hurt.

SERIOUS FIRE.

ROCHESTER, N. Y., June 12.—About half of the village ofodus was burned today, entailing a loss estimated at more than \$100,000.

JURY SECURED IN McNAMARA CASE

A jury was sworn in at police court No. 2 this morning to try T. McNamara, who was arrested on March 26 on a charge of having plotted the ordinance against pool selling. F. E. Grigby, a Pinkerton detective recently in the employ of the California Jockey Club is the principal witness for the prosecution.

INTENT TO DEFRAUD WAS NOT PROVED

The trial of George Barkley, charged by Charles Willard with having forged the name of one Smiley to a check for \$25, ended in dismissal in Judge Samuels court this morning because of the fact that the intent to defraud was not conclusively shown.

ROCKS for LITTLE FOLK

A LA
GRANDE
DATE

[By Our Special Correspondent.]

MIRIAM SPIER.

children. The women's fashions do not vary so much as those of older people, and even so. In these days, when so much attention is paid to dress, it is necessary to keep watch and ward over the styles for children's frocks, or the little people soon look shabby and odd. Fortunately, children are cheap, and good materials, too, and there is a wide range of choice. Then, while trimming of all kinds is more fashionable than a year ago, the simplest of frocks may be severely smart—in one piece—provided they are trimmed with good material. Trimming of pretty collars and cuffs is all-sufficient. All white is expensive, but can be easily cleaned or laundered at home. Dark colors are, however, not unfashionable, be it understood, when they are made of good material. A child made of dark blue, red or brown material, a child looks well dressed for all occasions.

For party dresses simple muslin

lishes the collar and cuffs. A white kid belt with brass buckle is worn with it.

Accordien pleated or gored skirts are worn by older girls, and materials such as velveting cashmere and china silks are fashionable. The waists are pleated to the skirts, and the skirts are made up and finished with a round lace yoke at the neck and with deep lace cuffs to match. If the skirt is plain, not pleated, there are rows of narrow satin ribbon and the waist is trimmed to match.

But no longer is it fashionable to trim the frock with extravagantly wide bands of lace, entreeux or with lace edged flounces. There are exceptions to the rule, but there are more frocks of the plain description than of the fanciful. White serge, white velveting and white poplin are all in favor for girls' frocks. A plain frock of moderately wide plain pleated frock can be elaborated upon by the trimmings of braiding, the rows of satin ribbon and the lace yoke, or collar and cuffs, with the further addition of a sash in place of the waistband.

No longer need mothers declare that it is difficult to dress children, for never were the requirements of the juvenile world more carefully considered. Even the dressing of the awkward age—the girl all legs and arms—has become a comparatively easy matter, owing to the fact that the models and costumes of the models are almost confusingly plentiful.

All sorts of charming styles

the meagerness of growing girls. Among these are a new bertha and a very full skirt with ungoed widths. The bertha, which is cut circular and delicately trimmed, falls often to the belt, forming a collar. Sometimes the full skirt is shirred at the hips; sometimes it is only gathered. In this case above the wide hem there may be several rows of ruffles. The new dress for the girl who still shou the roundness of babyhood new fashions have a doll-like charm.

Little gored skirts are of an increasing vogue, decked often with tiny suchings of ribbon and quillings of lace, that form wreaths and garlands. The bodices on such toilets are equally pretentious high necked in most cases, some with a wide feather border, for corsetbone and even regulation corset bodies are worn by such age in France, high lace and ribbon trims and wide crush bellies. The new underdresses are other features of these charming gowns, which, of course, constitute the best main and tucker.

Along with this delicious fiery impulse to show other elegancies not usually accorded roads of S and A. An automobile coat of red velvet, with a hood to match was seen on a girl of about six years. For several ages is embroidered ponce, while real lace veils are seen for curly heads from one to four years old. These, which are white and sheer, first come in with a wide front and elaborate poke bonnets, in whose bouffant face trimmings delicate flowers are put.

The wash materials now the market demonstrate the increasing demand for beauty.

deanor to dress designs with even the most inexpensive of the wash goods it uses. It is never lovelier and the majority of them are have, besides, the added virtue of being really washable. For the match and color of the wash goods, which are much narrower wash fringes to match are seen. Exquisite flower tints are shown by the new piques, ducks, linens and drills, and upon the handsome frocks displayed in the shops. The materials used in braiding or hand embroidery are encountered.

The tinted chambrays and Scotch ginghams, every year used, are still combined with white Hamburg embroidery, with the best results in braiding often joining the seams of both bodies and skirts.

Challis is not usually accounted a wash texture, but the new challies are so warranted washable, and many display the border of the wash goods mentioned. Narrow wash ribbons are combined with them, with sometimes a stout lace for the yoke, and cuff bands.

But the growing fondness for imitations of wash textures is so great, that the fact, but in the placing of white above all colors. Never, merchants declare, were white wash textures supplied in vaster quantities or more exquisite varieties. From the imitation of the linen and cotton, some instances as a basket weave, the new white goods run to textures as fine as cobwebs. A party gown for a girl of 12 is made of three and a half yards of Paris lawn, with a wide lace collar, cuffs and skirt, and runs the neck and sleeves

bands is the lace used, and then only a single insertion and ruffle. The plain skirt is gathered at the waist and deeply hemmed. With such dresses and other airy white frocks colored sashes are much worn, the hair bow and a bodice knot matching.

A pretty *fad* is to have the ornaments worn also express the color of the ribbon, coral beads with a sash of the same shade, turquoise with blue and amber with yellow. For dress-up purposes, white stockings are considered a necessity, and so much is this under-

stood that the black legs once admired
and worn persistently out of date. Girls
below connecticut wear white sailor suits
and for them short neck chains of whitened
coral, the round beads faintly tinting
with pink are a new caprice. Some-
times a new departure are the white
whirling which
popular. The made-up garments dia-
played for the little girls who are per-
mitted to wear them, the strict tailoring
which is now approved. For girlish
waists is not advised, but above that
age they may be worn and much of
their staidness taken away by a new
skirt. This is a full pleated skirt
held over the shoulders by two sym-
metrical suspender bands or the same
material, which gives the shirtwaist un-
derneath a more childish look.

This skirt, especially if it is made in
the sailor style, has been so successful
that it will be found a valuable addition to a child's
wardrobe for seashore or country. Both
of which are well adapted to wear
with it, and a touch of smartiness be-
gained by one of the wide leather belts
which have become the very narrow
ones of a year ago.

These skirts originally designed in
this shape, and having a belt in the same
shape, anywhere from \$7 to \$12—these
tail embroidered are almost as much
valued as the grown-up double-breasted
harmonist models in green, blue, or
or triple tongue, with gilt or silver har-
ness buckles, and the kid or the softest
leather. It is necessary to have a good fit,
as the belt is necessary for a good fit.

Others far cheaper than these styles
however may have thin tongues gathered
together at the top, though the young
bucks, and the young girl who has only
\$5 cents to spend on her belt will find
such sorts quite good enough. Belts for
young children of both sexes are abun-
dantly sold in all stores, long and short,
bodices and blouses calling for them.
For these ages, however, the leather
girde is very narrow, entirely unshaped
and supplied with the plainest metal

duckie, the double-breasted reefer coat, ranging in size from one year to 19, continuing with the same degree of popularity. But it is the reefer with a difference. The shoulder seam is long, the coat it self very much thicker than its former appearance, and the collar is cut in a large puff with a deep cut. Brakids and buttons are used lavishly, and even the models in the woolen goods are furnished as handsomely as those with the cotton or rayon fabrics are the woollen and silk garments.

In hats the styles known as "fingeries" are the accepted mode for the season. These are seen in lawn, tulle, shirtings or in silk. They are made in a variety of fact, in all sorts of white and colored materials which will withstand the assaults of the average laundress. The shape usually consists of a full puff of material, some of which is gathered in a shanter order, and a large brim which is fashioned of several overlapping flounces, these slightly wired to hold the shape. Strings are used with them or not, just as the fancy dictates, though the majority of the strings add a touch of picturesqueness.

Flowers are used in abundance on all children's hats for dressy as well as other occasions. The white birds walking on the flowers are really the most popular ornaments on a flowered hat.

The New Frocks and Headwear.

Fetch'ng Sailor Suit.

White eaten duck fashions this fetching little snail suit, the collar being in cadet-blue linen braided in white, with cuffs to match, and the chevrons on the moderate-sized sleeve being embroidered in the same tint. The skirt is shirred to a skeleton waist in which the shield and collar are sewn, and the blouse is put on over the head, an elastic band in the waist hem adjusting the fullness.

Long-Waisted French Frock.

A fine printed French percale is used for this smart little model, in which the long French waist is taken to perfection. Rows of beading run with black ribbon velvet alternate with tucks, and a broad beading, ribbon threaded, passes around the waist. The skirt has three rather scant volants, each simply finished with a rouged hem.

The Josephine Model

Cut with a square neck and a short spencer waist, this fascinating little model lends itself well to almost any material. The waist is pleated and blouses slightly over the belt, to which the full skirt is shirred with several rows of the oscillating stitch of the sewing-machine. Over the shoulders are little buckled bretelles of velvet ribbon, and the same appears at the puff sleeves and around the waist.

A Little French Sailor.

In a fine Milan straw, this roll brings French salier offers an attractive model. The brim is unbound; a band of brown velvet encircling the crown and a huge rosette at the side, pierced with a smart white oull.

Dainty Shade Hat.

An all around hat of leghorn is wired to follow soft undulation: around the face, and the edge bound with a fancy straw. A wreath of wild roses and foliage encircles the crown, and is tied in the back with loops and ends of black velvet ribbon. A bandeau lifts the shape off the face, and the underbrim is faced with lace and strapped with a fancy straw.

On the Russian Mode.

This very smart model is fashioned in one piece, broad box pleats running from shoulder to hem, and affording the requisite fullness in the skirt. A shield and collar in scarlet linen embroidered in white, lends a touch of color, and a white kid belt is loosely passed around the waist.

A la Grande Dame.

Brown straw composes this picture shape, which is sharply lifted at one side to show a huge chou of white chiffon. A long ostrich feather is draped on the other side, and a loose fold of white satin ribbon encircles the crown and is tied in a coquettish bow which falls on the hair in the back.

Little Bo-Peep Bonnet.

A fine white crinoline straw is bent into shape for this little Bopoop bonnet the brim of which flares out the face in front and presses closely to the head in the back. A little wreath of bluish pink roses edges the brim, and long stemmed cherries are cunningly used in the "scoop" front. Bows and rosettes of white taffeta ribbon are perched here and there, and the long streaming strings are of the same lustrous ribbon.

A Unique Boy's Costume.

Art Needlework Goods

The approach of vacation time with its many leisure hours under the redwoods, on the beach or the summer resort piazza, invests the Art Needlework Section with supreme interest.

It is hardly possible that you can want anything in this line that we cannot supply—there is so much of it and so well selected. Don't hesitate a moment to ask for advice.

Stamped linens in new designs for every purpose—and everything required for satisfactory working.

The Corset Section

is justly regarded as a most important one—so much depends on the corset. However, you can't depend too much on our corsets they're all dependable. Agents for "The Kabo" and Thomson's "Glove-Fitting," two of the world's most stylish makes "R & G," "W B," "G D," "Equipoise Waists," "Ferris Waists"—all are good, too, and we carry full lines of them.

Prices, 50c, \$1.00, \$1.50 to \$5.00. Those desirable Summer Girdle Corsets in nearly all lines.

HARBOR BILL IS IN HOUSE

Congressman Knowland Sends Word to the Chamber of Commerce.

The chamber of commerce has received a communication from Congressman Knowland to the effect that the Oakland harbor bill will be considered by the house this week as a part of the sundry civil appropriation bill.

The harbor bill is as follows: "Be it enacted by the senate and house of representatives of the United States of America in congress assembled."

That the following sums be and the same are hereby appropriated, for the objects hereinafter expressed of the fiscal year ending June 30, 1907, namely:

Improving harbor at Oakland California, for continuing improvement, in completion of contract of authorization with a view to obtaining a channel 300 feet wide and twenty five feet deep from San Francisco bay to Fallon street, \$81,000.

This appropriation is for the unexpended balance of the \$350,000 appropriated by congress and for which the Oakland board of trade committee visited Washington two years ago.

GOVERNOR WOULD LIKE TO ATTEND

Alfred Wilkie of this city has received a communication from Governor Pardee in reference to the celebration of the Battle of Bunker Hill to be held under the auspices of the Bunker Hill association on June 16 in Sunset Park near San Jose. Regretting his inability to attend he says:

In common with the patriotic members of the Bunker Hill association I believe that it is the duty of all American citizens to celebrate the anniversaries of the days upon which the great events of our national history took place. Such celebrations keep alive the patriotism of our people without which our nation cannot long survive.

FISHER WAS IN THE ST. FRANCIS

Frank A. Fisher, the live traveler for Sheehans Art Establishment, 297 Con Greene street Boston is in the city. He annually makes large sales to the coast department stores. He called in to tell us the following interesting story.

When here last year he closed a large order with the buyer for one of the largest department stores in San Francisco. He was very delicate and Fisher feared that he would not be able to trip due to an extreme and lingering case of diabetes.

Fisher's surprise can be imagined when on arriving just before the shake he found his old friend strong and hearty—in fact, so vigorous that he joined Fisher in the best dinner the St. Francis could put up including the usual sweets and pastries all of which are supposed to be serious to Diabetics. Fisher wanted to know the secret of his wonderful transformation and learned it. The patient had taken of fifty bottles of Fulton's Diabetes compound. Fisher was so pleased at the recovery of his old time friend that although he did not know who he stopped in at the office of the Fulton Company, 5910 San Pablo avenue to shake hands and tell us the above not omitting the name of the prominent business man referred to. Such things as this are occurring all the time and yet the books declare Brights Disease and Diabetes are incurable when in fact they are curable in nearly nine tenths of all cases by Fulton's Compounds.

For Brights and serious kidney diseases ask for the Renal Compound. For Diabetes get the Diabetes Compound. At all druggists.

A JUST REWARD

Mr. George W. Fountain for the past fifteen years head salesman for the Oakland Fruit & Produce Company has today been admitted partnership in the firm. Mr. Fountain is extremely popular with the trade, and both he and his former employers are to be congratulated.

MORE MUSIC AT UNIVERSITY

SYMPHONY CONCERTS TO BE RESUMED IN THE GREEK THEATER.

BERKELEY, June 12.—Music lovers about the bay, who have so liberally patronized the symphony concerts given by the university during the spring will soon have another opportunity of hearing Professor Wolle's now famous orchestra as well as the Minetti string quartet, led by Guallo Minetti, who was concert master for Dr. Wolle. The musical and dramatic committee of the university prompted by the great success of the spring series of concerts has arranged for three symphony concerts and three concerts of chamber music by the Minetti stringed orchestra to be given during the summer session in the Hearst Greek theater.

The first of this series will be a symphony concert to be given on Thursday, June 28 at 3:30. A week later on July 5, will follow the first concert by the Minetti stringed quartet and they will alternate this way during the six weeks of the summer session. Season tickets for the six concerts will be \$3 for the reserved section and \$2 for the unreserved section.

OPPORTUNITY TO TESTIFY

Railroad Men to Be Invited to Appear and Give Voluntary Statements.

PHILADELPHIA, June 12.—The presidents of the big coal carrying railroads will be given an opportunity to appear voluntarily before the interstate commerce commission and make any statement that they desire. Commissioner Cockrell said today that invitations would be extended to the president of those railroads to appear before the commission. No subpoenas will be issued.

"You cannot condemn a man without a hearing," said Commissioner Cockrell.

The commission resumed its inquiry today into the relations of the railroads to the coal and oil interests.

HOME COMING IN KENTUCKY

Natives of State Hurrying Back to Participate in Ceremony

LOUISVILLE Ky, June 12.—Kentuckians from all parts of the United States are flocking back to their native state for the home-coming week which will be formally inaugurated tomorrow.

Thousands of the native born unit nearly as many more who have returned to the state to participate in the home-coming week. In the city of Louisville, the home-coming week will be celebrated by a series of events. The first of these is the home-coming parade, which will be held on Saturday, June 16. The parade will start at 10 o'clock and will proceed down the main street of the city. It will be a grand affair, with many floats and bands. The parade will be followed by a picnic on the banks of the Ohio river. The picnic will be held on Sunday, June 17. It will be a day of fun and games, with many prizes to be won. The home-coming week will close on Monday, June 18, with a ball. The ball will be held at the Louisville Athletic Club. It will be a grand affair, with many prizes to be won. The home-coming week has been a great success, and it is hoped that it will be a permanent feature of the city's calendar.

POSTAL RATE IS LOWERED

Reduction Made by Congress Recently in Convention in Rome

WASHINGTON June 12.—In connection with the work of the recent universal postal congress the postoffice department has given out the following as the effect of one of the provisions of that convention affecting the country.

The universal postal congress recently in convention at Rome Italy ordered a substantial reduction in letter postage by increasing the unit of weight effective on and after October 1, 1907 from 17 to 20 grammes and providing that while postage on the first twenty grammes shall remain at 25 centimes (five cents) every additional 20 grammes shall be at the rate of 15 centimes (3 cents).

FARRIS BOY SENT TO HIS GRANDMOTHER

SEDALIA Mo June 12.—Willard Tuesday the five-year old boy who last Tuesday was brought from San Antonio on a Missouri Kansas and Texas train in charge of a conductor and left at Booneville Mo, where nobody claimed him, was today placed on a train for St. Louis enroute to New York to his grandmother, Mrs. Lizzie Farris.

SALOON LICENSES ARE REVOKED

At the regular meeting of the board of trustees last night Marshal Edward Ray Carey reported to the board that Thomas J. Giblin and R. Hughes saloonkeepers, near Shell Mound Park were found selling liquor on Sunday. This being in violation of the ordinances their licenses were revoked.

GEORGE KOTZER IS DEAD

George Kotzer, who for several years conducted a hotel at the Alameda junction died last Sunday at the Livermore sanitarium after a lingering illness. The deceased was well known in these parts where he has lived for about twenty years. His funeral will take place at Livermore tomorrow afternoon at 2.

BIG BRIDGE IS BURNED

Galveston Cut Off From Railroad Connection With Outside World

HOUSTON, Texas June 12.—About 1000 feet of the bridge over a mile long which connects Galveston Island with the mainland burned this morning isolating Galveston from all connection with the outside world except by boat.

Galveston is built on an island in the Gulf of Mexico and a long stretch of shoal water separates the city from the mainland. This water was spanned by the single long bridge which burned.

DRINKING WATER IN THE PARKS

Editor TRIBUNE For several Sundays (since my family and self have been in Oakland) we have visited the public parks but we could not find any drinking water not even a common faucet and tin cup I refer to the squares at Eleventh and Alice streets and Seventh and Harrison streets. Now it would be a very good idea for

Wellman's Aerial Voyage in Search of the North Pole.

Walter Wellman, a former Washington newspaper correspondent who has been actively identified with Arctic exploration since 1894, when he led a North Polar expedition and reached the latitude of 81 degrees North, is preparing for an aerial voyage to the North Pole, in the hopes of reaching that inhospitable goal which so many explorers have vainly endeavored to reach by ship and sledge for over a century. With characteristic American fearlessness, Wellman is undaunted by the failure of Andree in his ill-fated balloon trip to the North Pole which started from Dane island off Spitzbergen on July 11, 1897, and which was never heard from after 12:30 p. m., two days later. The tragic fate of that expedition will probably never be known. Four days after its departure, a carrier pigeon alighted in the rigging of a sealing vessel cruising near Spitzbergen bearing the last and the only message of the three which are known to have been sent by the intrepid aerial voyager and his two companions which reported that at noon on July 13th their balloon was in 82 degrees 2 minutes north latitude and 15 degrees 5 minutes east longitude, making good progress southeasterly, and all well. It is presumed that Andree's balloon, which was supposed to have from ten to fifteen days' sustaining power in the air, descended in the ocean to the southeast of Spitzbergen and that he and his adventurous companions met the fate of drowning which they anticipated among the possibilities of the voyage.

Andree's mammoth balloon was not equipped, however, with any propulsive power to aid it in its aerial flight. It was strictly at the mercy of the fickle wind. Nor had it anything better in the way of a steering device than that of the common guide rope which, at best, serves its purpose very imperfectly. Since then the science of aeronautics has made material progress and the dirigible balloon has been fairly well developed. The air ship with which Wellman intends to make the dash for the North Pole, and which he has named the Gargantuan, is, therefore, a dirigible balloon. It is equipped with eighty horsepower motors. The balloon itself is a cigar shaped gas reservoir 154 feet in length and 52 feet in diameter and capable of resisting a wind pressure equal to that produced by a velocity of fifty miles an hour. It is supplied with the sustaining capacity of twenty days continuous suspension in the air, during which time it is guaranteed by the builders to carry five men, food for seventy-five days, ice drags and cables, a wireless telegraph equipment, instruments, tools, repair materials, motor sledges, steel boat, lubricating oils, 5500 pounds of petrol—the fuel to be used in the generation of power—and the steel car in which cargo and machinery will be stored and the crew housed. Everything which experience in past Arctic exploration suggests as necessary for the preservation of the air ship and its crew has been provided for in its construction and equipment.

The Wellman air ship was finished last week by the Parisian builders. Yesterday it was inspected by a number of English, French and German scientists interested in aerial navigation and Arctic exploration. During the week Wellman and his assistants in the expedition will start for Norway with the air ship and its equipment, and they expect to reach Spitzbergen, whence the voyage will begin, by the 1st of July.

The expedition is interesting the entire scientific world, more especially, of course, that part of it which is devoting itself to aeronautics and Arctic exploration. It is, in fact, commanding more attention among this class of scientists than the Peary expedition which is now on its way to the Far North in the auxiliary steam schooner Roosevelt, which vessel was built expressly for the voyage of discovery on which it has entered. Peary has, of course, made several futile attempts to reach the North Pole by water and land and ice. His present expedition has been planned on different lines from those in which he was previously engaged, and it is his design to reach the pole over the ice by comparatively easy stages. Food stations are to be established at stated points en route to cover the retreat whenever necessary to resort to it. To carry out Peary's plans several years may be consumed. Wellman, on the other hand, expects to succeed or fail in his enterprise this year. His ambition is, of course, to anticipate the possibility of Peary's success, and win for himself whatever renown will be attached to the discovery of the North Pole.

Some of the South and Central American republics are said to be totally indifferent about accepting the invitation extended to them to be represented at the next meeting of The Hague Peace Congress. Indeed, some of them have actually declined the invitation while others have not even shown the courtesy to acknowledge the receipt of the invitation. These republics probably realize the worthlessness of such a congress to them, for their quarrels are so bitter and chronic that it would require the Peace Congress to remain in session permanently in order to attempt to settle them.

Oregon Election a Roosevelt Triumph

Some surprise is being expressed that Oregon should re-elect a Democratic Governor. There is no occasion for surprise. In the first place, Mr. Chamberlain has made an excellent Governor, a fact that nobody pretended to deny. In the second, the Republicans had an uphill fight because of the land fraud revelations.

Senator Mitchell died a convicted felon, and Congressmen Williamson and Hermann now have convictions hanging over their heads. Many lesser Federal and State officials belonging to the Republican party are also involved in the land fraud scandals. Hence the Republicans were compelled to make a local fight entirely on national issues. They could only offset the exposed corruption of the local machine by pointing to the stern integrity of the National Administration.

All the reply they could make to the exposures relating to Mitchell, Hermann and Williamson was to point to Roosevelt and say these men had been exposed and brought to the bar of justice by a Republican Secretary of the Interior acting under the express direction of a Republican President. An endorsement of the President was all the ground they had for urging electors to vote the Republican ticket.

But this argument was of no avail in the case of the Governorship. The Democrats presented a popular candidate of tried capacity whose election could not embarrass the President nor be construed as a rebuke to his policy. The Oregonians, therefore, did what might have been expected of them—re-elected Chamberlain and elected two new Republican Congressmen to succeed Hermann and Williamson. Consequently the result in the Webfoot State must be construed as a distinct personal triumph for President Roosevelt and an unqualified indorsement of the land fraud prosecutions.

Employer (sternly)—I have too good a memory to work the same trick on twice, boy. Your grandmother died last fall season. Boy (timidly)—Please, sir, I had two.—Baltimore American.

Russian Imperialism Facing Another Crisis.

The conflict of purpose between the lower house of the Russian parliament and the imperial government has precipitated another crisis in the affairs of the nation. Three points of difference are involved in the situation, as it now exists. The house has demanded the resignation of the Goremynkin ministry, the abolition of capital punishment and the expropriation of the government or public lands and the estates of the present landowners throughout the empire. If the ministry voluntarily resigns or the Czar forces it to abdicate, it will be a concession of a responsible government to the Russian people and the greatest political triumph which the prolonged struggle for constitutionalism in the empire has so far achieved. But Goremynkin is under the influence of the bureaucracy and obstinately refuses to resign. It rests now with the Czar to decide whether the Douma's demand in this respect shall be granted or denied. If it is denied, it is impossible to foretell the consequence, as the majority of the house is determined not to retrace the step it has taken. There will be nothing then left for the Czar to do, but to dissolve parliament, which course, it is assumed, will be fraught with much more danger to the Romanoff dynasty than any other one which he could at the present time adopt. There are some indications, however, that internal dissensions in the cabinet will force its retirement. In that event, the Czar will be relieved, for a time at least, from committing himself to either the policy of positively antagonizing parliament and challenging it to do its worst, or to that of yielding to its demands that the ministry shall be held responsible to the popular will as expressed through the voice of the people's representatives in the national legislature.

Regarding the demand for the abolition of capital punishment the government has resorted to duplicity, by representing that delay is necessary for its proper consideration, and, at the same time, executing the patriots for the preservation of whose lives the demand was made. Moreover, other executions and condemnations to suffer the death penalty have followed which indicate conclusively that the government has no sincere intention of changing its policy in this regard, although the Czar is credited with the humane desire to comply with the Douma's wishes.

As to the expropriation of the great landed estates and the imperial domain, the government has met the Douma's demand with a tentative offer of a compromise, namely, to divide the imperial estates, in certain provinces, among the peasantry in consideration of the payment of a fixed price per acre by installments covering a long period of years. Such a proposition will doubtless fail to placate the peasantry whose hunger for the possession of the land cannot thus be appeased, for the proposition carries on the face of it the possibility of the confiscation by the crown later of all the rights which they may acquire under the concession, provided that an irresponsible autocracy is maintained. Agrarianism is, therefore, increasing throughout the provinces, and the government is, according to all accounts, more incompetent than it has been at any period in its history to cope with the situation and prevent disorder.

The strain between the Douma and the government is thus intense. The Czar's indecision is forcing matters from bad to worse. He is, unfortunately, lacking in that political wisdom and firmness of character which recently enabled the Emperor Francis Joseph of Austria to preserve his imperial dignity and authority in his bitter contention with the Hungarian Diet and afterward to make such concessions regarding the Hungarian tariff, universal suffrage and equal representation, against the advice of his own ministry, as appeased the wrath of the Hungarians and satisfied the Diet's demands on the more vital issues involved in the controversy between it and the Crown. Nicholas II of Russia might learn something in the present crisis in his empire from his venerable imperial neighbor's experience and course of action, which if acted upon would go far toward averting a national revolution and installing him in the favor of his subjects. He is of such a vacillating temperament, however, that it is more than likely he will let the opportunity pass without making the proper use of it and thus increase the perils of his reign.

Our Sacramento correspondent says the Governor's task of scanning the bills passed by the Legislature is rendered very laborious by reason of the numerous typographical errors they contain. Some of these errors make the bills ridiculous, and in some cases affect the sense of the legislation. It is not easy to see why these flagrant errors should occur in the State Printing Office. In a daily newspaper, set up and rushed off within a few hours, mistakes in typography will unavoidably occur, but the mistakes in newspapers rarely destroy sense. It does seem as if the State Printing Office could do as well as the papers. It ought to do better.

SOME PASSING JESTS.

"Why do you object to my eating so much?" asked the gourmand. "You know the old proverb says that in eating well one praises the food."

"Well, you're not praising that food," said the ascetic. "You're flattering it grossly."—Cleveland Leader.

Church—I saw a funny picture of your friend, Flatbush, today. He had his right hand stretched out above his head.

Gotham—Yes, he told me about that. It seems just as the photographer was about to take it he called to Flatbush to move up a little. Flatbush forgot himself, thought he was on a car and reached for a strap.—Yonkers Statesman.

"I observe that you have persuaded your constituents to think as you do."

"That's how it looks," announced Senator Sorghum, "but as a matter of fact I have persuaded myself to think as most of my constituents do."—Washington Star.

Miss Willin—I am writing to Mr. Rocks, the gentleman I met in Florida last fall. I drop him a line occasionally, you know.

Miss Cutting—Don't be discouraged, dear. You may land him some day.—Omaha Bee.

"Nobody laughed at the story the very seedy little man told in the grill room."

"That was Swarthmore's cousin. He didn't tell it will."

"Oh, I see—a poor relation."—Cleveland Plain Dealer.

"Do you regard baseball as a healthful game?"

"Well," answered the physician, "I should say it ought to do a great deal toward strengthening people's lungs."—Washington Star.

Borough—Say, old man, lend me a tenspot, will you? Lenders—No, thank you, I'm not making any permanent investments just now.—Philadelphia Press.

Weak Lungs

It is the old story of a weak throat, a tendency to weak lungs in the family. You no sooner get rid of your old cold than a new one takes its place. Ayer's Cherry Pectoral breaks up this taking-cold habit. It strengthens, heals. Ask your doctor, the very next time you see him, what he thinks of Ayer's Cherry Pectoral for weak lungs. We have no agents! We publish it. G. C. Ayer & Co., Lowell, Mass.

Grip Pains

It would be utterly impossible to imagine anything more distressing than La Grippe pains. They are simply indescribable, and seem to be composed of all the misery sensations known. Yet they can be relieved, and in a very short time, by taking

Dr. Miles' Anti-Pain Pills

the greatest remedy on earth for pains of any kind. Their soothing influence upon the nerves is felt throughout the entire system. "I had La Grippe pains all over me, and I was in such distress I thought I could not endure it. I thought of Dr. Miles' Anti-Pain Pills, and after taking three doses the pain disappeared and I slept peacefully. My brother has a swelling on his neck, and uses them, as they ease the pain and have no bad effects like quinine powders."

"ADELIA LANE, Portage, Mich." If they fail to help, your druggist will refund your money on first package. 25 doses, 25 cents. Never sold in bulk.

HINDOO REFORMER MAKES TROUBLE FOR MINISTER

KANSAS CITY, Mo., June 12.—Rev. Charles Ferguson of this city, as a result of publication in Boston, intimating that a charge of heresy might be made against him on account of statements made recently in his church in this city by Punthi Krishna, a Hindoo reformer, has tendered his resignation to Bishop Atwell of this diocese of the Protestant Episcopal church. Rev. Ferguson stated that he had committed no ecclesiastical crime, but that he had resigned to prevent the embarrassment of the members of the diocese.

THROW CHILDREN FROM HOUSE TO SAVE THEM

CHICAGO, June 12.—The eight children of Joseph Blondewski ranging in ages from three weeks to nine years, were thrown from a second story window by firemen today when a blaze broke out in their home. Escape for the children was entirely cut off and all of them must have perished had not the firemen dropped them out of the window, other firemen catching them as they fell.

One girl was overcome by smoke, but recovered. All the others were uninjured.

SOCIETY

The marriage of Miss Erle May and William Govan takes place this evening at the home of the bride's parents, Mr. and Mrs. Andrew May, in East Oakland. The marriage service will be read by the Rev. Raymond Brooks in the presence of a small company of relatives and friends.

The bride will wear a white satin gown, made on train, and the bodice elaborately trimmed with lace and chiffon. A veil will complete the pretty costume, and the bride will carry a shower bouquet of white roses. There will be no attendants, but the bride will be given away by her father. Mrs. May, mother of the bride, will wear a black net gown over silk.

After an informal reception and wedding supper the couple will leave for a honeymoon trip, returning to occupy their new home in East Oakland.

Mr. Govan is a popular young man of this city, and a nephew of Robert S. Leckie.

AN ENTERTAINMENT.

A pretty entertainment was given at the Old Ladies' Home on Forty-fifth street near Broadway a few nights ago, when a few talented young people gave an exceptionally good program. The ladies without exception enjoyed the evening.

Miss Winnie Bruce played three fine violin solos; Miss Mabel Williams and John Williams sang; and Miss Elvina Howe gave some interesting recitations.

ENTERTAINS FRIENDS.

A few nights ago Charles Clements entertained his friends in a very delightful manner at his home at 1001 Jackson street. The evening was devoted to cards, and was enlivened with a great variety of refreshments. Owing to Mr. Clements' ability as a host the party did not break up until late. Among those who partook of the hospitality offered were Clarence Rowell, Roy Harrison Danforth, Harold Cross, Mr. Cross, Burton Sizer, R. Enders and Alexander R. Schmidt.

SURPRISE PARTY.

Miss Carrie Way, daughter of Mr. and Mrs. William Way of Linda avenue, was the recipient of a pleasant surprise party last week at her home. Eighteen young friends planned the affair under the direction of Miss Alice Katzenberg. The evening was spent with music and games.

Those present were Miss Katzenberg, Miss Lottie Howe, Miss Sara Fouch, Miss Gertrude Bell, Miss Kathleen Waters, Miss Josephine Hopper, Mrs. R. Katzenberg, Mrs. A. B. Campbell, Mrs. W. H. Way, Frank Judge, Bert Hoogs, Carl Kirth, George Katzenberg, Marshall Hopper, Alfred Hopper, Ed Seamen, Robert Hurly, W. H. Way, Master Willie Way.

GOLDEN WEDDING.

Mr. and Mrs. C. Westphal, formerly of San Francisco, celebrated their golden wedding anniversary last Thursday at their home in Fruitvale. The decorations were in gold and green, and after an elaborate dinner the guests enjoyed an automobile spin. Following is a list of those who enjoyed the old people's hospitality: Mr. and Mrs. H. N. Westphal, Mr. and Mrs. C. H. Westphal, Dr. and Mrs. O. F. Westphal, Mrs. Gonzales, Masters Dolph Westphal, Alvin Westphal, Harold Westphal, Mrs. C. Schoemaker, Mrs. L. Bruckman, Misses Grace and Viola Westphal, Eddie Westphal, Miss Annie Westphal.

AN ENGAGEMENT.

The engagement is announced of Miss Ella Reid and Tyrrell Hamlin of Berkeley. Miss Reid is the daughter of Dr. W. C. Reid of Madras, but is a former student at the state university.

The groom-to-be is well known in the college town, where he was a graduate with the class of '02. The wedding will take place in August.

HOME WEDDING.

The marriage of Miss Alice Jones and Clifford P. Bowie takes place this evening at the home of the bride's brother, Howard F. Jones of Berkeley. The Rev. Adelbert Coats of the Berkeley Baptist church will officiate. The bride will be attended by Miss Violet Jessup of San Diego.

The couple will live in San Francisco, where the groom is employed on the staff of the city engineer.

MUSICAL EVENT.

One of the events of the week which promises to attract a crowd of music-lovers to Alameda is the musicale arranged by Mrs. S. A. O'Neill, Don Teller and Mrs. Charles Hughes, to take place Thursday afternoon at 4 o'clock at the home of Mrs. George Emmons in Alameda.

The proceeds of the affair will be devoted to the city engineer.

DOCTOR EXPLAINS.

His Article in the Medical Magazine About Coffee.

One of the most famous medical publications in the United States is the "Medical Magazine." In a recent number of which an entertaining article on coffee by a progressive physician and surgeon was published. In explaining his position in the matter this physician recently said:

"In the article I really touched but lightly upon the merits of Postum Food Coffee. I have had several cases of heart trouble, indigestion and nervousness where a permanent cure was effected by merely using Postum in place of coffee without any other treatment."

"In my own family I have used Postum for three years and my children actually cry for it and will not be satisfied with any other beverage. Indeed they refuse to eat until they have had the customary cup of Postum and as it is a re-builder and does nothing but good I am only too glad to let them have it."

"To get the best results we boil the Postum at least twenty minutes and it is then settled by adding a little cold water, then the addition of fresh cream makes a beverage I now prefer to the very best coffee." Name given by Postum Co., Battle Creek, Mich.

Authorities are agreed that Postum is a wonderfully quick and sure re-builder. Ten days' trial in place of coffee proves it.

Look in packages for the famous little book, "The Road to Wellville."

MISS ERLE MAY, WHOSE MARRIAGE TO WILLIAM GOVAN TAKES PLACE THIS EVENING.

devoted to the need of a prominent musician, Professor Lombardo of San Francisco, who, with his wife and six children, have been living in Alameda guests at home.

Mr. and Mrs. Frank Barnett have had as guests at their home since the fire Joseph Pike and Orville Kenney, Mrs. Joseph Pike is expected to arrive on the next steamer from the Orient, having started for home as soon as she learned of the disaster.

since the loss of their home in the city. The program promises to be one of unusual excellence and the following well-known musicians will take part: Professor Adelstein, Mrs. H. Sherwood, Professor Heinrichs, Alfred Cogswell, Perry O'Connor, Miss Johnson, Andrew Perry and others.

The committee in charge are confident that the affair will be a splendid success and besides the beautiful home open to the guests a stringed orchestra will play in the garden.

The Emmons home is one of the most attractive in Alameda with the ballroom where there is accommodation for 200 guests.

INFORMAL AFFAIR.

Mrs. Arthur L. Adams entertained today at a humble but complimentary to her mother, Mrs. R. B. Emmell of Topeka, Kansas, and her sister, Mrs. Herbert Boal of Mobile, Alabama. The affair was quite informal and included a score of guests.

LINEN SHOWER.

Miss Leslie Manuel was hostess this afternoon at a linen shower in compliment to Miss Carolyn Wellmann, who is to be a June bride. The guest list included a score of Miss Wellmann's friends and the popular guest of honor received many dainty linen gifts.

AT GREEK THEATER.

On the afternoon of July 8 the state convention of Christian Endeavorers will hold a session at the Greek theater. There will be a musical program rendered by the Junior union and directed by Professor Carl Sawvell. A particularly fetching feature to be offered by the little ones will be the singing of the "Star Spangled Banner," for which they will be appropriately costumed. About 200 children are expected from San Francisco to join in the exercises.

PRETTY WEDDING.

At 5 o'clock this evening the marriage was solemnized of Miss Dorothy Heuer and Beach Dean at the home of the bride's mother in East Oakland. Rev. E. E. Baker officiated. The plans for an elaborate wedding had been abandoned, since the family of the bride lost their home and possessions in the San Francisco fire and the wedding today was marked with the utmost simplicity.

None but immediate relatives attended the pretty ceremony.

The bride wore a dainty gown of pompadour silk made princess and trimmed with real lace. She wore no veil, but carried a shower bouquet of bride roses.

The maid of honor, Miss Belle Herzer of San Francisco, was gowned in white silk and carried bridesmaid roses.

The house was beautifully decorated in pink and white, sweet peas, carnations and roses adding their dainty coloring to the scene. The nuptial vows were pledged under a canopy of roses.

After the wedding supper Mr. and Mrs. Dean will go south for a honeymoon trip, returning to make their home in this city.

WHIST CLUB.

Mrs. Henry Plummer entertained the members of the Good Cheer Whist club yesterday at her home and a delightful afternoon was spent with the cards. The prizes were carried off by Mrs. Webster and Mrs. E. Beardsley.

The score cards were dainty hand-painted affairs, each bearing a souvenir of the fire. The players were: Mrs. J. J. Allen, Mrs. E. Beardsley, Mrs. Blatchley, Mrs. M. L. Broadwell, Mrs. Colvin, Mrs. Dietz, Mrs. Dynes, Mrs. George Flint, Mrs. Hoskins, Mrs. Henry Plummer, Mrs. Andrew May, Mrs. Resequie, Mrs. William Rheem, Mrs. Gordon, Mrs. McMath, Mrs. Webster, Mrs. F. J. Wilson, Mrs. W. B.

AT RELIEF HOSPITAL.

The Alameda County Maternity Association is making a good record and doing excellent work in the relief hospital at Twenty-first street and San Pablo avenue. Mrs. Oscar Long, Mrs. M. L. Broadwell and Mrs. J. L. Milton, who are deeply interested in the institution, are tireless in their efforts to provide the patients with all necessary comfort. Much assistance has been received from the public in the form of baby clothes, a quantity of which has been donated by many kind-hearted people. Indeed, the babies seem to appreciate all this generosity as heartily as their parents, for they look as happy as ever healthy, chubby babies could look. There are quite a few of these brown and blue eyed girls and boys ready for out-door jaunts, but owing to a scarcity of go-carts and baby carriages the little ones are kept indoors. So any donation in this line would be gladly received at the relief hospital.

REPEAT CAFE CHANTANT.

The outdoor vaudeville given last week at the MacDermott home will be repeated Friday evening, the proceeds of the second affair to be devoted to the relief work at the Maternity hospital at Twentieth street and San Pablo avenue, and for the Orphans' Shelter in the St. Francis de Sales school building.

The splendid success of the first affair and the interest manifested by local society in the great charity work promises an immense success for next Friday evening.

Chief among the workers for the good cause are: Mrs. C. F. MacDermott, who is so generously donating her grounds; Willard Barton, who is in charge of the performance, and Mrs. Oscar Fitzgerald Long, Mrs. Robert A. Gray, Mrs. Edward Lacy Brayton, Mrs. Henry A. Butters, Miss Mahony, Miss Mabel Gray and Miss George Strong. Among the corps of society maids and matrons who will assist are Miss Margaret Butters, Miss Gertrude Russell, Miss Natalie Pore, Miss Helen de Young, Miss Constance de Young, Miss Edith Simpson, Miss Lucile King, Miss Frances Stuart, Miss Helene Robson, Miss Ruth Kales, Miss Rose Kales, Mrs. Irving Lundberg, Miss Florine Brown, Miss May Coogan, Miss Bessie Palmer, Miss Gertrude Allen, Miss Elizabeth McNear, Miss Abby Church, Miss Viva Nicholson, Mrs. Robert A. Gray, Mrs. John Henry Dieckmann, Mrs. William Hamilton Morrison, Miss Gertrude Joffe, Miss Virginia Joffe, Miss Mary Downey, Miss Lillian Downey, Miss Emma Mahony, Miss Arline Johnson, Miss Mollie Mathes, Mrs. Whipple Hall, Mrs. G. B. Cook, Miss Florence Hush, Miss Marwedell, Miss Emma Grimwood, Miss Ray Wellmann and several others.

WEDDING ANNIVERSARY.

Mr. and Mrs. H. B. Duffin celebrated the twenty-second anniversary of their marriage on last Sunday evening in their pretty home at 1428 Oak street, Alameda. Their handsome residence was beautifully and artistically decorated for the occasion. Only a few of their most intimate friends were there and those that were fortunate enough to be present had a most enjoyable time. There was vocal and instrumental music during the evening and at midnight a repast was spread that would do credit to Deimonico's chef. The happy assemblage dispersed wishing Mr. and Mrs. Duffin twenty-two years more of happy bliss. Mr. Duffin is one of the best known railroad and steamship ticket agents in the United States and is now permanently located in Oakland.

PLEASANT AFFAIR.

The Hayward Country club gave a charming dance last week, followed by music and a supper. Some of the guests were: Mr. and Mrs. F. C. Cooper, Mrs. E. O. Webb, Mr. and Mrs. Harry Meek, Mr. and Mrs. Will Meek, Mrs. John Lynch, Mrs. William Angus, Miss Harriet and Miss Gladys Meek, Miss Evelyn Adams, Miss Bouich Brigham, Miss Helena Plaw, Miss Helen

Parsons, Harold Meek, Valentine Hush, John Speers, Willard Cooper, Hal Angus, Charles Helms and Mr. Stephens. The Misses Gallegos of San Jose are spending a pleasant week with Mrs. Will Meek at her Hayward home.

SOCIETY NOTES.

Mr. and Mrs. H. M. A. Miller, having changed their plans for the summer, will remain in town indefinitely. Miss Mabel Bacon enjoyed the winter season in Santa Barbara and will now return to spend the summer with her mother, Mrs. C. M. Bacon, in Berkeley.

Mrs. F. C. Van Slocken and Miss Hilda Van Slocken of Alameda intend to leave July 1 for Lake Tahoe, where they will spend the summer at the Tavern.

Mrs. Linda H. Bryan entertained her friends with a delightful dinner Sunday evening at her home on Buchanan street. Among those present were: Miss Lalla Wenzelburger, Lieutenant Cowan, Francis J. Heney and J. Mason Smith.

Miss Jennie Blair, who expects to travel abroad indefinitely, has been enjoying a visit at the MacDermott home while selecting apartments on this side of the bay.

Mrs. Adolphus W. Greely has rejoined her husband, Major-General Greely, U. S. A., commanding the Pacific coast division. They will reside at the E. Granada, corner of Bancroft way and Telegraph avenue, Berkeley.

Mr. and Mrs. Arion H. Kolenborn have just arrived from the north, where their wedding was solemnized May 11 at the home of the bride's parents, Mr. and Mrs. Clarence D. Hayward, at San Carlos.

Miss Selma Sharpe will visit her sister, Mrs. George Ashleigh, this summer at her new home on this side of the bay.

Mr. and Mrs. Challen Parker, having passed their honeymoon at Alta, are to spend the summer at the De Golla house on Harrison street.

Mrs. Parshina Paulin is sojourning at Napa Soda springs for a week.

Mrs. Sam Breck and Mrs. Prentiss have started for Yosemite, where they propose spending quite a vacation.

Mrs. Orestes Pierce has abandoned her European tour for the present and at present is the guest of some friends in Boston. She will probably return to California in a short time.

George W. Peckham and T. A. Peckham were recent visitors in Marysville.

Thomas and wife were in Marysville for a short stay.

Miss Annie Conway are in Marysville visiting W. T. Harrington and family.

Miss Cornelia Stratton is visiting friends in Southern California.

WHAT'S

One man's poison is another man's meat. This holds good even with vegetarians. I remember a funny fish story I read in the Philippine. At the local hotel at all the local hotels at East Aurora, was Friday. He said, "fish. The waiting room was with beef and mutton. 'Oh, is all out.' 'God knows I'm not for fish,' the stranger said; but he ate his meat just the same. I love a good roast of beef, but for a light lunch I always go to Lehnhardt's."

HOT BOULLION, OYSTER COCKTAILS, HOT COFFEE AND CAKE, ICE CREAM, ETC.

Lehnhardt's

OFFICIALS AT LOGGERHEADS

Berkeley Auditor Refuses to
Pass Demands for
Trustees.

BERKELEY, June 12.—Town Attorney Johnson has rendered a decision to the town trustees in regard to the legality of the payment of salaries to the assessor's office, the stenographer to the health officer and the stenographer to the fire chief, marshal and town clerk.

At last night's meeting of the board of trustees, Attorney Johnson rendered the opinion upholding these appointments and recommending the payment of their warrants, which Auditor Hanson has refused to pass.

OPINION OF ATTORNEY.

Attorney Johnson said: "Under the town charter the trustees of the town of Berkeley have power to appoint any officers they may deem necessary and fix their duty and compensation. Now the board recently appointed a stenographer to the committees of the board and fixed their duties and compensation. I recommended at the time that such proceedings were legal and I still maintain this attitude. Auditor Hanson has taken the stand that because Stenographer Koford's duties keep him in the clerk's office his appointment is not legal; if he wishes to use his extra time in the clerk's office he may do so at his will, and there is no legal reason why he is not entitled to his salary. The same reasoning will apply in the case of the map clerk and stenographer to the police and fire departments, and in my opinion they are legally entitled to have their warrants audited."

Attorney Johnson also says the board cannot do indirectly what they cannot do directly, and on this latter point Auditor Hanson insists he is sustained by the attorney.

AUDITOR'S POSITION.

Auditor Hanson says: "The constitution of the state says that the salary of an official cannot be increased during his term of office. The supreme court has decided that to appoint an officer a deputy or clerical assistance is to increase his salary. When a town officer is elected he enters into a contract with the town to do the work at the salary provided; he takes an oath of office and gives a bond to do the work. To allow an officer a stenographer is the same as giving him a deputy and under the decision of the court is the same as giving him more salary."

"Attorney Johnson says the board cannot do indirectly what they cannot do directly and that certainly settles the matter. The board cannot increase the clerk's salary directly and hence they cannot beat the devil around the bush by giving him a stenographer."

"I shall remain firm in my attitude, as I believe the courts will sustain me. I will not audit the claims of the officers in question."

NEW BROKERAGE FIRM ORGANIZED

BERKELEY, June 12.—Articles of incorporation of the H. S. Haseltine Company are to be filed tomorrow with the county clerk. The capital stock is \$50,000. The company will carry on a general real estate and brokerage business, the principal place of business being Berkeley.

H. S. Haseltine, the senior member of the firm, has resided in Berkeley for the last twenty-five years, and owns the old Haseltine tract in Claremont. The other incorporators are E. E. Shepherd, M. J. Congdon and George Trueblood.

INSPECT COWS.

ALAMEDA, June 12.—Veterinary Inspector Carpenter is to commence his annual physical examination of all cows belonging to dairies which supply residents of this city with milk within the next few days. This procedure is gone through each year.

CHARMING GIRL SOON TO BECOME A BRIDE

Minnie Raphael of
Berkeley to
Wed.

BERKELEY, June 12.—One of the weddings of the season will be that of Miss Minnie Raphael of Berkeley to Victor Mendelson of San Francisco on June 20. Only the immediate relatives will attend the ceremony. The engagement has just been announced.

Miss Raphael is deemed one of the most popular girls on this side of the bay, where she has a host of friends.

Mr. Mendelson is a promising young business man of San Francisco, and up to the time of the earthquake was employed with Wellman, Peck & Co.

After a brief honeymoon trip through the states, the couple will reside in Portland.

JAIL SENTENCE.

ALAMEDA, June 12.—W. J. Brewer, who confessed to stealing many articles from the home of his landlady, Mrs. Mary J. Ryer of 2325 Pacific avenue, was sentenced to thirty-five days in the county jail by Judge Tappan, and the man was taken to Oakland yesterday afternoon.

BERKELEY TRUSTEES IN REGULAR SESSION

Reports Received and Bills Allowed
---Inspector Wants Raise
in His Salary.

BERKELEY, June 12.—The board of town trustees met last night at their regular weekly session, with Trustees O'Connor, Olson, Favors, Hoff, Schlad, and President Rickard being present. The town attorney was present as legal advisor.

The minutes of the last meeting were read and approved. A communication from the North Berkeley Improvement club was received and read. The commissioners appointed for the opening of Seventh street asked for payment for their services in connection with the work of opening the streets. They presented the following letter telling why the work has not so far been done, and why they were entitled to their pay:

To the board of trustees—Gentlemen: On July 10, 1905, your honorable board passed an order that the sum of fifty dollars be paid to each of the commissioners for the opening of Seventh street, when said commission shall have received and had recorded all of the deeds to land taken for said opening. Because of necessary court proceedings, there has been a delay in securing said deeds and an indefinite period may still elapse before said deed can be obtained, and as your commissioners have done everything in the matter that they can do, they respectfully petition your honorable body to order said payments to be made at once. Very truly yours,

Enril G. Richter, E. S. Newell, John Squires.

PETITIONS.

Mrs. Westerman asked that the board should give her permission to erect a wooden building at 2223 Adeline street. This building is within the fire limits, and although there was considerable discussion in the matter, a permit for the erection of the structure was granted. She showed to the board that the building was to be only a temporary one, as she was going to build on the adjoining lot as soon as the lease of the owner of the blacksmith shop expired.

The Byron Jackson Machine Company asked that the board rescind resolution of intention for the opening of Carlton street to the tide lands. The company pointed out that they had secured a valuable manufacturing site that would be ruined if the proposed street opening were made. They claim that a spur of the Southern Pacific Company runs through their land and the street should not be opened as it would cut up the valuable hold in that section. The matter was referred to the committee on streets.

BILLS PAID.

The following bills were ordered paid:

Against the street fund—Arthur

Dickinson, \$19; J. T. Vinther, \$71.50;

Contra Costa Water Company, \$148.55;

Contra Costa Construction Company, \$45.50;

Langren-Hicks Company, \$37.75;

J. F. Grady, \$77.20; J. N. Jacobson, \$35.75;

E. J. Gordon, \$100; J. Curtis, \$35.50;

Robert Kirby, \$35; G. R. Bunde, \$45.00;

W. A. Crowl, \$50; The Oakland Paving Company, \$5; J. Carney, \$48;

released on tag receipts; 2 dogs re-

leased under age.

DISCLOSURES TO CONTINUE

Alameda Minister Says He Has
Not Ended Fight On
Police.

ALAMEDA, June 12.—Rev. P. C. Macfarlane, the "fighting parson" says that he has not finished his present fight against the alleged corruption in the police department and he has promised to make more disclosures.

Chief of Police John Conrad is still reticent in regard to making a statement in his own defense against the attack Sunday night of Rev. Mr. Macfarlane, in which it was said that the head of the police department was incompetent and indifferent to the duties of his office, as shown by a recent statement he made discrediting the work of three of his officers who had raided Chinatown.

"I have nothing to say in regard to Mr. Macfarlane's speech," said the chief. "If I should say anything it would be misconstrued by these people."

"I see that Mr. Macfarlane takes a shot at the jurists the police get. What kind of jurists does he want and how does he want us to get them? The last time they started in to get a jury, I don't think they made very much of a success of it."

In this last remark the chief refers to a venire of jurors which was secured by Deputy Constable Louis McGlaughlin, to secure a jury to try some gambling cases. It was alleged by the attorney for the defense that the official of the law was biased and in securing the venire, picked out church members, whom, he was sure, would secure a conviction. It was claimed at the time that Rev. Mr. Macfarlane was instrumental in having McGlaughlin appointed and in instructing him to pick out men who were against gambling of all kinds and under all circumstances. The case before the court at that time was that of John Hew, charged with selling opium.

Macfarlane was conducting a crusade against this form of gambling at the time and was the prime mover in the securing of the arrest of Hew.

The six Chinamen who were arrested during the raid will come up before Judge F. S. Bull next Thursday.

VOL. LXV.

OAKLAND, CALIFORNIA, TUESDAY AFTERNOON, JUNE 12, 1906.

NO. 104.

MILLIONAIRE PACKERS FOUND GUILTY

ACCEPT RAILWAY FAVORS

Prominent Firms Must Pay for Having Violated the Law.

KANSAS CITY, June 12.—Armour & Co., Swift & Co., Cudahy & Co., and the Nelson-Morris Packing Company were found guilty in the United States district court here this morning of receiving concessions from the Chicago, Burlington & Quincy railroad company on export shipments on packing house products.

Judge Smith McPherson of Red Oak, Iowa, the presiding judge, stated that sentence would not be assessed until the case against the Burlington railway, which is charged with granting the concessions to the packers is concluded. The Burlington's trial will begin this afternoon. The law in the present case provides for a fine only and not a jail sentence.

KANSAS CITY, June 12.—The cases of the four meat packing companies charged with accepting rebates were given to the jury in the United States district court at 10:40 a. m. today. A verdict is expected today.

The cases are those of E. Armour & Co., Swift & Co., Cudahy & Co., and the Nelson-Morris Packing Company. They were charged in indictments with receiving from the Burlington railway concessions on shipments from the Kansas City plants for New York for export. The cases were consolidated for trial purposes. The specific case considered, which is practically identical with the others, is that charging Cudahy & Co. with accepting a rate of 23 cents a hundred pounds on a shipment of lard to New York for export to Germany when the legal tariff then on file with the interstate commerce commission was 35 cents. The trial began last week, and after lengthy argument was continued until this morning when Judge McPherson instructed the jury.

IMPORTANT CASE.

The present case bears unusual importance from the list of rebate trials to come up in this court, for it is the first time that any concern has been brought to trial before a jury on a charge affecting export rates as applied to the interstate commerce act. Counsel for the defendants in this trial contended that the court lacked jurisdiction, which was overruled by Judge McPherson, and then that when they signed a contract covering the 23 cent rate it was legal and that the Burlington later raised its tariff to 35 cents. Judge McPherson's instructions to the jury covered the points fully.

REASONABLE RATES.

Judge McPherson said that in the case on trial there is no question as to the reasonableness of the rates now as to the efficiency of the service, but the question is, did the defendant packing company receive unlawful concessions in making such shipments? He recalled the fact that while their contract on the basis of the twenty-three cent rate was in effect they were aware of the fact that the Burlington railway and its connecting lines had filed a thirty-five cent tariff with the interstate commerce commission. The court declared that as a matter of law the question as to the validity of the packers' contract was not a practical question "because and for the reason that the defendant company had no right to make a contract that would extend beyond the time of filing new schedules with the commission at Washington, fixing the rate to the general public at a higher and different rate than that covered by the contract."

He continued:

UNLAWFUL CONCESSION.

"And when the amendatory rates east of the Mississippi river was filed with the commission August 6 and the defendant knew of the same, it could not knowingly receive a less rate or concession than that paid by the general public without being guilty of receiving an unlawful concession, provided that the same was thus received by any kind of device as hereinafter recited. This is so because the right, privilege and liberty of contract usually existing between all persons and corporations is modified and controlled by that provision of the constitution which gives to congress the right to regulate commerce between the states and foreign nations."

Judge McPherson, in concluding, said:

GUILTY INTENT.

"It is important for you to determine whether the concession of twelve cents per 100 after August 6, from the rates covered by the schedules then on file with the commission was the result of a device and whether done with a guilty intent."

(Continued on page 15.)

MAYOR MOTT'S IDEAS AS TOLD TO CITY COUNCIL OF A MUNICIPALITY

COUNCILMAN GEORGE FITZGERALD, WHO WHILE MAYOR MOTT IS IN THE EAST GAINING KNOWLEDGE AS TO MUNICIPAL AFFAIRS, WILL ACT AS OAKLAND'S CHIEF EXECUTIVE.

Present Conditions, He Says, Calls for an Increase in Estimates for Nearly All of the Departments.

The city council held a special meeting last night at which Mayor Mott was granted sixty days' leave of absence, although he intimated later that he might not be away more than four weeks. All of the members of the council were present except Elliot and Thurston.

After a resolution granting the mayor the leave of absence had been unanimously adopted, he expressed his gratitude for their action, and added:

MAYOR'S ADDRESS.

"I had not decided until very recently that I should take this trip. Business calls me away, and I shall probably be gone three or four weeks, looking after business matters. In the short time since I decided to go, so many things have crowded upon me for attention that I have not had time to do what I had intended doing—writing you a message relative to some things which I think we should at this time give attention to. I will speak a few words to you, anyway, and send the message later. What I have to say will pertain largely to plans for the coming fiscal year. We all should recognize the great responsibility which has been thrust upon us by the changed conditions following the San Francisco disaster. One of the most important matters for us to consider is that of funds. Sufficient funds should be provided to conduct all of our business affairs in a manner proportionate to the greatly increased business conditions and population. All of this calls for an increase in nearly all of our departments in making our estimates for the coming fiscal year."

POLICE AND FIRE.

"This is particularly true of our police and fire departments. Then our schools and library must be carefully looked after along this same line. Before the county assessor does his work attention should be called to this matter, and valuations should be fixed accordingly, that we may have a proportionate increase in the income from taxes. It is well known that the assessed valuation of this and other counties is away below what it should be. The county assessors have a little rivalry, I presume, in keeping the assessments as low as possible. If the law was strictly followed and the assessments made in proportion to real value as contemplated, we would have a much greater sum with which to meet our expenses and for betterments than we now have."

WORK SHOULD CONTINUE.

"Another thing which we should keep in mind is the requirement of lands for parks and the extension of boulevards. We have made a good start the past year, but we must not stop. I am satisfied the people will sustain the council on any such propositions which are rightly handled. I wish especially to commend to your careful consideration the report of Mr. Robinson, which was read to you a week ago, concerning plans for beautifying Oakland. He calls attention to how we may proceed along these lines. After July 1 I shall ask you to publish the report in pamphlet form, as it will thus be handy for reference and circulation. He has traveled all

over the world, and has made it his life work. Our problem is a very simple one—so simple, in fact, that it is difficult to suggest anything especially new. We all know about what should be done, but he has shown us how to do it."

LESSONS TO BE LEARNED.

"We should profit by the lessons growing out of the San Francisco disaster. No city is better situated to profit thereby than Oakland. The earthquake cracked one of our two main water pipe lines, but fortunately they were repaired within two hours. But suppose the dam of the reservoir had been broken by the earthquake, and the water thus emptied. It will be seen that our condition then would have been a most serious one. It seems to me that it is time we should prepare to install a salt water plant, at least for street sprinkling purposes. Some time ago Councilman McAdam and myself presented a plan for such a plant, which it was estimated could be put in for about \$15,000. Such a plant would enable us to effect a great saving in the sprinkling of our streets, as our bill for street sprinkling is enormous. It is more than any other city of like population. Fresh water for street sprinkling lasts but a short time at the best—perhaps not more than half an hour on a warm day until the dust is flying again after the sprinkling cart has gone along. But salt water, when sprinkled upon the street, forms a sort of a crust which prevents dust and likewise does not permit the street to get muddy. Salt water preserves the street surface and keeps it more compact than fresh water sprinkling. As a dust-reducer, street-preserver and money-saver, salt water is certainly the best thing for the streets. We ought to inaugurate this system this coming fiscal year. We should be able to expend at least \$15,000 for such a starter. We could also lay auxiliary pipes to be used for fire protection. Other cities have salt water plants for these purposes, where they are situated on the seacoast, as we are here. I have been in correspondence with the officials of Boston, where there is a large salt water plant, and expect documents from there soon, showing the cost, etc."

"Another thing along the line of protection from fire is the plan which City Engineer Turner presented in a letter to this body several weeks ago, that of having wide places or strips, separating the different parts of the city, so that in case of fire, these wide places would prevent any further spread of the flames. We all know what an important part this played in the recent San Francisco conflagration. Where there were extremely wide streets the fire stopped."

COMPLIMENTS CITY.

"It is a matter of satisfaction to myself, and I am sure to this honorable body, the manner in which our city acquitted herself during the trying times following the disaster to our sister city. The relief committee which was promptly organized and which has done such good work, will soon close its work, and there will be no scandal following for everything has been well done and in a systematic manner. Not only has this been the city council,

CHINA IS NOW IN A BAD WAY

Soldiers Are Not Paid, and There Are Many Desertions.

PEKIN, June 12.—China is in bad financial straits. The expenses of the government are multiplying without increased revenues. They pay of the new army is considerably in arrears and a great percentage of desertions is resulting. The dowager empress has issued a long edict impressing on all officials the necessity of economy. The edict is addressed to the people and attempts to justify the course of the government. It says that no one appreciates so much as the throne the sufferings of the people from the taxation necessary to meet the great foreign indemnity and new government projects which have been increased by the disfavor of heaven in failing to send rain.

LITERARY CLUB TO REASSEMBLE

The Bertheau circle, a literary club of the most prominent German women of San Francisco, Oakland, and Alameda, which celebrated February last its tenth anniversary and which was broken up by the awful tragedy, has found courage again to take up its usual reading meetings. The circle will assemble for the first time on Monday, June 18, at 2 o'clock at the residence of Mrs. William Wolff, formerly of Washington street, San Francisco, now at 1630 Central avenue, Alameda, under the able leadership of Stage Director Arthur Becker. The members whose addresses have been found and who will congregate at the next meeting are Mrs. Caesar Bertheau, president; Mrs. George Volkman, vice-president; Mrs. Charles Bundschuh, Mrs. G. F. Bowman, Mrs. C. Bruntsch, Mrs. Ernst Denike, Mrs. Ehrmann, Mrs. Dr. Schiele, Mrs. H. W. Hansen, Mrs. G. Heilmann, Mrs. R. Hoppe, Mrs. Habenicht, Mrs. Paula Humphreys, Mrs. L. Koster, Mrs. Dr. H. Kreutzmann, Mrs. F. Russ, Mrs. F. Roeding, Mrs. Siegfried, Mrs. Walter Spier, Mrs. Ad. Schmidt, Mrs. Claus Schilling, Mrs. Simon, Mrs. H. Weber, Mrs. William Wolff, Mrs. G. Wores, Mrs. F. Hess.

DUPONT ELECTED DELAWARE SENATOR

DOVER, Del., June 12.—Colonel H. Dupont was elected United States senator by the Delaware legislature which met in joint session at noon today.

done its part well, but every other department in the city government has also done well, the officials and employees of the city working incessantly many times far into the night, in order that the pressing duties resulting from the extraordinary occasion might be discharged. I want to thank the council, and through the council, all others who have helped to sustain the good name of Oakland in these extraordinary times. The city today stands in a more exalted position than ever before."

"I will promise you that while away I shall keep my eyes and ears open, and if I learn of anything which will be helpful to us in our work here, shall take pleasure in letting you know of the same upon my return."

Publishers' Announcement

TO THE PUBLIC: June 30 THE TRIBUNE began publishing a regular Sunday morning paper, the best class, containing the latest foreign and domestic telegraphic news, local and State news, special correspondence, literary and dramatic criticism, strong editorials, a carefully selected miscellany, special features for women and children, etc. This Sunday morning edition will be the peer of any newspaper of its kind on the Pacific Coast, and will be entirely distinct from the regular evening editions of THE TRIBUNE, which will in the future, as in the past, be crammed with live news from all parts of the world and articles discussing public questions from an independent standpoint. The price of THE TRIBUNE, including the Sunday issue, will be fifteen cents per week or sixty-five cents a month, by carrier.

TWO PRINCIPALS DEPOSED BY BOARD OF EDUCATION

Action Taken After Session That Lasted for Hours and Caused Members to Divide Into Several Factions.

Principals I. B. Martin of the Grant school, Mrs. E. A. Wilson of the Peralta school, and Paul Uth, physical instructor, lost their positions in the school department of this city at a meeting of the board of education last night. This action was the result of an argumentative executive session that lasted two hours, and caused the board to split up into several factions before the debate was finally over.

After proceedings were all over, on motion of Director Redington, Mrs. E. A. Wilson, who had been a teacher in the public schools of this city for twenty years, was elected as a teacher in the department. Her position as principal, however, was taken from her. An attempt to elect the other two, should they be willing to accept a subordinate position, however, failed.

VOTE IS CLOSE.

The position of H. S. Schwatka as superintendent of buildings, with a salary of \$150 a month, which has been none too secure of late, by a close vote was affirmed, and he will continue in his duties under the direction of the committee on schoolhouses and sites. An attempt was made to have the place declared vacant until such time as the reconstruction of the injured buildings was begun, but this was finally voted down.

PETRAY IS CHOSEN.

In the place of the two deposed principals, Henry C. Petray of the Hayward school was elected to one of the vacancies, and H. Wheeler of San Jose was elected to the other. Petray was elected by the board on the first ballot. But it was only after six ballots that Wheeler finally won out sufficient votes to take the plum away.

Another matter that caused considerable debate was the instruction to Superintendent McClymonds to draw the salary warrants of the teachers in full for the ensuing year. He explained that there was now in sight the sum of \$129,000, and that this amount was \$2100 short of sufficient funds for the needs of the department. He stated that if the average daily attendance was above the average for the preceding year, that in all probability this amount would come in.

But on the other hand, if the daily attendance fell off at all, there might be even a larger deficiency, and he favored drawing the warrants for 80 per cent of the amount of the salaries until the end of the year, when, if there was sufficient money on hand to warrant the payment of the balance, this could then be done. His position was supported by Directors Redington, Pratt and Wood.

FAVOR TEACHERS.

Opposed to this were Directors Clift, Rogers, Ingler, Wilcox, Hathaway and Nunan. Directors Clift and Hathaway in opposing this took the position that the teachers should be paid in full, and that there was money now on deposit in several of the Oakland banks to the amount of over half a million dollars, which was drawing interest, and that if the banks should refuse to discount any warrants that there were not sufficient funds to meet they would advocate taking the money out of their hands."

"I don't see how you can instruct me," said McClymonds, "to draw warrants for money when you don't know whether it will be there or not."

IN OR OUT?

Redington.—It would be just the same as if you drew a check when you knew the money was not in the bank, but hoped that you might be able to put it in before the check was presented for payment.

Clift.—I do not think so, at all; the chances are the money will be there. Besides this there is half a million dollars drawing interest, of which the banks are getting the benefit, and it would be pretty small potatoes if they should refuse to discount any warrants for which there might not be funds to meet.

Hathaway.—If they did such a thing I should advocate the taking of the money out of their hands entirely, and placing it in the county treasury. I believe these teachers should be paid in full.

Redington.—Well, I shall go to the bank and explain the situation.

Hathaway.—And I say that I will do all in my power to remove the money out of the hands of the banks if there should be any question about the discounting of any warrants.

A vote was called for on the question of drawing the warrants in full, which resulted in ayes: Clift, Rogers, Ingler, Wilcox, Hathaway and Nunan. Noes—Redington, Pratt, Wood.

OTHER MATTERS.

A communication was received by the board from Miss Ethel Moore requesting the use of the Lincoln or the

Lafayette school in connection with the sewing being done in connection with the relief work during the holidays. On the recommendation of Director Clift, she was given her choice of either of the two schools.

On motion of Director Rogers and seconded by Clift, the salary of primary and grammar grade teachers was raised \$2.50 a month, to compensate them for the loss of time occasioned by the closing of the schools on account of the damage done to the buildings by the earthquake.

At the request of a number of the pupils of the graduation classes of the two Oakland high schools, the graduation exercises of these two classes will be held in the assembly hall next Thursday and Friday evening. It was stated in this regard that this was an event in the lives of these pupils, and that they were anxious to have their families present when they were given their diplomas.

An attempt to have Matilda K. Wendell placed on the substitute list of teachers at the Oakland high school was voted down. The reason given for this by a number of the directors was that she had not been recommended by Principal Pond.

The following action was then taken by the board in relation to the election of teachers for the ensuing fiscal year of 1906-07:

REGULATE SALARIES.

The maximum salary for any given position shall be fixed at a certain sum per annum.

For the convenience of the board of education, these salaries shall be divided into twelve equal payments, to be paid only so long as there are funds available, and at such times as the board of education may hereafter direct.

Any teacher who shall be absent, or who shall have been elected after the close of the year begins, or who shall resign from the school department during the school year, shall receive in the aggregate such a part of the salary for the year as the number of weeks of service is of the total number of weeks required.

For the maximum salary teachers shall render forty-two weeks of service. Where the expression "experience in teaching" is used in this schedule of salaries of the grammar and primary schools, it means experience in teaching in any state normal or public high school or public grammar, primary or kindergarten school as a regularly certificated teacher having charge of a class and drawing salary for the teaching.

Should there not be sufficient funds to maintain the schools during the entire forty-two weeks, the board of education reserves the right to order closed the schools, and to pay the teachers and other employees of the schools ordered closed in full of all demands, such a part of the maximum salary fixed for the position held as the weeks of service rendered is of the forty-two weeks of service required.

A teacher employed one-half of each day (except as hereinafter provided) shall receive per annum for forenoon work sixty per cent of the salary he would receive for full time, and for afternoon he shall receive fifty per cent of the salary he would receive for full time.

Should it be necessary to open half-day classes on account of lack of room, the salary of a teacher from 9 a. m. to 12:30 p. m., or from 1 to 4:30 p. m., shall be seventy-five per cent of the regular salary for the grade taught.

In all mixed classes the salary shall be that of the highest grade taught. Should a teacher of a second grade be required to teach a first grade class that was not able to complete the work of the first grade within the year, she shall receive for such work the salary of a first grade teacher; and should a grammar grade teacher be required to teach the highest primary grade work to a class that was not able, within the year, to complete the primary work, she shall be paid a grammar grade salary.

Teachers who shall be detailed as assistants to principals shall receive in addition to regular salary of

teacher the sum of \$12 per annum. Any increase or decrease in the number of classes in a school during any fiscal year shall not change the salary of the principal.

The maximum salaries for the year ending June 30, 1907, are fixed as follows:

SCHEDULES FOR 1906-1907.

Teachers who are graduates of a normal school or of a college or university shall be paid as follows, per annum:

Less than one year's experience, primary grades, except first and kindergarten grades, \$752; grammar, first and kindergarten grades, \$792; more than one and less than two years' experience, primary grades, except first and kindergarten, \$792; grammar, first and kindergarten grades, \$852.

All teachers who have had two or more years' experience shall be paid as follows, per annum: Primary grades, except first and kindergarten grades, \$852; grammar, first and kindergarten grades, \$912.

SPECIAL TEACHERS.

Supervisor of drawing, for twenty-one weeks of service, \$754; supervisor of music, in addition to salary of position held, or grade taught, \$6; supervisor of nature study, in addition to salary of position held, or grade taught, \$6; supervisor of manual training, \$1612; supervisor of penmanship, in addition to salary of position held, or grade taught, \$180.

PRINCIPALS.

All principals shall be required to take charge of a class as a regular class teacher at least half a day each day. Principals not heretofore required to teach classes, will do such teaching in the afternoon. All other principals to continue teaching as heretofore.

SALARIES OF PRINCIPALS.

Principals of schools of sixteen classes or more, except as hereinafter provided, \$2012; Principal of Franklin school, \$2012; principal of schools of from eight to fifteen classes, inclusive, \$1712; principal of Piedmont school, \$1712; principal of Harrison school, \$1512; principal of Peralta school, \$1512; principal of Washington school, \$1512; principal of Grove street school, \$1512.

EVENING SCHOOLS.

Principal Central evening school, \$912; teacher of class for high school studies, \$812; teacher of other classes in evening school, \$492.

JANITORS OF GRAMMAR AND PRIMARY SCHOOLS.

Bay, \$572; Clawson, \$792; Cole, \$1212; Durant, \$1332; Franklin, \$1032; Garfield, \$1272; Grant, \$1032; Grove street, \$492; Harrison, \$992; Lafayette, \$1512; Lincoln, \$1302; Peralta, \$1512; Piedmont, \$752; Prescott, \$1272; Swift, \$552; Temescal, \$722; Tompkins, \$912; Washington, \$492; Common School Assembly hall, \$72; Peralta (outside), \$72.

Department mechanic, with horse and wagon, \$1512.

Department administration—Truant officer, \$612; stenographer in superintendent's office, \$912; assistant to superintendent of schools, \$2100; deputy superintendent of schools, \$2012; city superintendent of schools, \$2212.

Note.—The annual salaries above fixed represent what the teacher or employee receives in warrants. In order to realize cash on said warrants, the holders thereof must usually pay to banks a discount during the year aggregating one and one-half per cent of the annual salary.

SALARIES OF GRADES.

The maximum salaries for the year ending June 30, 1907, are fixed as follows: Teachers who have had less than two years' experience, \$1092; teachers who have two but less than three years' experience, \$1212; teachers who have had three, but less than five years' experience, \$1272; teachers who have had five or more years' experience, \$1332; teacher of physical culture, Oakland high school for girls, three days per week from 8:30 a. m. until 5:30 p. m., and on Saturdays when required by principal, \$912; teacher of physical culture, Oakland high school for boys, three days per week.

(Continued on page 15.)

FROG SKINS ARE POPULAR NOW FOR LADIES' PURSES

NEW ORLEANS, June 12.—A most unusual question in classifying frogskins as freight was today asked of the freight agents of several railroads in this state by their rural agents. The question is whether a frog skin shall be classed with wild animals' hides, birdskins, fish, or in a class by itself, for which double rates shall be charged. Dealers have had the skins shipped under each of these headings, but so large has become the industry of sending them east for manufacture into covers for ladies' pocketbooks that more uniformity is demanded. The extreme lightness of this commodity, has contributed to the confusion in classification.

JOHN P. COOK, Clerk.

FAILS TO PAY MARRIAGE FEE

Groom Now Known as J. Flynn
Leaves Judge Quinn
in Lurch.

John Flynn, a young man who gave his age as 23, and who Justice of the Peace Quinn says should be named "Flynn," was married to Bernice Brown, the companion of Evelyn Walker, who is responsible for the conviction of Attorney David Mitchell on a charge of having misled them, this morning in the private office of County Clerk J. P. Cook. After the ceremony Flynn told Quinn that he had no money and left the justice without any compensation for his early morning trip to tie the knot.

His clothing stolen.
Dr. J. L. Howell, of Amherst, Colorado, and at present a guest at the Touraine hotel, has reported the theft of his suit case, containing clothing valued at \$100, from a Twelfth street car yesterday morning. There is no clue to the guilty party.

SUDDEN END OF PIONEER

Harry Garthwaite, Old and Respected Resident, Dies in This City

Harry Garthwaite, one of Oakland's oldest and most respected residents, a pioneer who had made for himself a place of honor in the community, died suddenly yesterday afternoon at his residence, 391 Fairmont avenue. Death came to him with unexpected suddenness, although he had attained the advanced age of 81 years, he was strong and rugged, and fond of outdoor life.

It's Beyond Compare.

The Arlington grill and dining room. Breakfast and lunch, 25 cents; dinners, 35c. Nothing better for the price anywhere. Only white labor employed.

MAYOR MOTT ON LONG RUN BONDS

Views Conveyed to Senator
Leavitt on Bill Now
a Law.

(SPECIAL TO THE TRIBUNE.)
SACRAMENTO, June 12.—Mayor Mott of Oakland has written the subjoined letter to Senator Leavitt on the question of issuing bonds for 100 years in response to a question on that subject by the senator. A bill allowing bonds to be issued for one hundred years was the inspiration of the senator's letter. It has since, however, been passed but the limit of the bond has been reduced to seventy-five years. The bill dies in two years, and during its operation is effect only in San Francisco and San Jose. The letter of the mayor is as follows:

MATERIAL ASSISTANCE.

"Of course, I readily realize that in the position San Francisco now finds herself, the granting of permission to sell one hundred year bonds will undoubtedly be a material assistance in the reconstruction of that city, but under ordinary circumstances, I could see no particular advantage to be derived therefrom.

EXTRA JURORS FOR PEMBROKE

The trial of Percy Pembroke charged with the murder of Thomas Cook at Fruitvale on the night of July 22d last, which was begun for the third time yesterday, was resumed this morning and the examination of jurors by Attorney L. S. Church and District Attorney Allen was expected to consume all of today. But ten men were examined yesterday afternoon as to their qualifications to act as jurors in the case and only a few more were examined this morning.

A new departure in the case has been announced by Judge W. H. Waste, who states that he intends to have at least one and possibly two jurors sworn in to sit with the others and listen to the evidence in order to guard against the possibility of any of the jurors becoming ill, and thus delaying the case. Formal objection will be made to this by Attorney Church on behalf of his client, but it is understood the objection will be overruled and the extra jurors sworn in.

MISSING FROM HOME.
Charles Smith of 4176 Glenn avenue has been missing from his home for the past week. His relatives fear some harm has befallen him. He is thirty-eight years of age, five feet tall and has a sandy moustache.

LAW FOR LIARS IN SENATE

Shortridge Enlivens Session With a Novel Proposition.

(SPECIAL TO THE TRIBUNE.)
SACRAMENTO, June 12.—During the closing hours of the senate, when, after a long period of hard work considering bills, there came a lull in the proceedings, Senator Shortridge sent to the desk a bill intended to restrict lying within the state of California. The announcement of the subject created a great deal of amusement.

One senator asked if the subject had been mentioned in the governor's call. Another wanted to know what Senator Shortridge knew about lying. A third was equally solicitous to ascertain what there was in lying that he did not know all about. Whereat no person laughed more heartily than did Shortridge himself.

Leavitt thought the bill should be referred to the committee on public morals. Pendleton said a committee without morals would be the best one to consider the subject.

Senator Shortridge said that they would be in the dark unless they should allow the bill to be read. The measure was accordingly read as follows:

LEGISLATING AGAINST LYING.

"Section 1.—Henceforth and forever, the practice of lying, except as herein after provided, shall be unlawful in the state of California.

"Section 2.—Definition: A lie has been defined as an abomination in the sight of heaven, a very pleasant help in time of trouble. That definition is adopted for the purpose of this act.

KINDS OF LIES.
"Section 3.—Lies are divided into two classes—white lies and damn lies. White lies are excepted from the operation of this act, because they carry their own punishment.

"The meaning of the terms employed in this act can be best shown by example. An example of the white lie is the case of the man who votes against increasing the contingent expense fund and then carefully explains to the newspapers that he hates to take the money. Another example is that of a man arriving home at 3 p. m., who is discovered by his better half creeping with gentle tread up the stairs minus his shoes which he is thoughtfully carrying in his hand for fear of disturbing his slumbers and who finds it absolutely necessary to the pressure of work in the committee.

"In this case the unhappy man's trepidation while waiting in fear and trembling for sentence and the few extemporaneous remarks on her part which follow are a sufficient punishment.

A — LIE.
"A damn lie is where a man promises to vote for a measure and afterwards sadly explains that he voted the other way because he supposed that the measure was safe to go through anyhow.

OPEN SEASON.
"Section 4.—There shall be an open season, consisting of three months, immediately preceding every election, during which the prohibition of this act shall not apply to any person engaged in a strenuous campaign to assume the burden of public office or to carry any other kind of a load. For one year after the passage of this act it shall apply only to counties of the fourth class.

"Section 5.—This act shall take effect immediately.

LEC REPAIRED;
TOOLS MISSING
Thomas Hogan, who is charged with petty larceny by Patrolman Cox at the city prison, is if the complaint proves true, a living example of one who has but little regard for the humorous or the feelings of his victim.

MELROSE CLUB HAS MEETING

Decides to Send a Delegate to County Committee Convention.

MELROSE, June 12.—At the regular meeting of the Improvement club Saturday evening the registration of voters was made a part of the evening's work. Mr. Wilson of the county clerk's office and an assistant were present, as was also M. S. Summer of the local registration deputies, and quite a number of citizens were thus enabled to easily and conveniently place their names on the new great register.

The secretary read a letter from the California Promotion Committee giving an outline of the program of work and entertainment of the convention of the counties committee to be held at Napa on June 16th. The chairman urged the sending of a delegate to the convention from Melrose and after considerable discussion a motion to do so was carried.

F. McFall and S. C. Parker were placed in nomination, but Mr. McFall being compelled to withdraw because of a lack of time would prevent his going. Mr. Parker was unanimously elected.

A letter from the Suburban Electric Light Company, giving the cost and kind of light that might be placed at the Linda Park station, was read.

MRS. HERRICK PASSES AWAY

After a continued illness Mrs. William F. Herrick died last night at her home, 69 Santa Clara avenue, in this city. The deceased was well known in charitable, religious and social circles and did much toward relieving the wants of those dependent upon charitable institutions.

At her death Mrs. Herrick was 58 years of age. She leaves five daughters, J. B. Stanford, I. Lucy and M. E. Stanford, all deceased, who was born in England, had lived in this city for thirty years past.

Time for the interment, which is to be in Mountain View Cemetery, has not been set.

CONFESS ATTEMPT TO KILL

Youths Acknowledge Trying to Murder Parents of One.

BRIGHAM CITY, Utah, June 12.—Edward Sorenson, aged 18 years, and Henry Woodland are under arrest here charged with the attempted assassination of young Woodland's parents at Willard, a few miles south of here. It is charged that Sorenson entered a room where Mr. and Mrs. Woodland were sleeping and fired the contents of a double-barreled shotgun into their bed. Mrs. Woodland's arm was blown off and she received other terrible injuries. It is feared that she cannot recover. Mr. Woodland, who is an invalid, escaped serious injury. Young Woodland had quarreled with his parents over a land transaction. Sorenson has made a statement in which he charges that Woodland instigated the crime and says that it was their intention to burn the house, but that after firing the shot his nerve failed him and he fled.

SEEN ROWING; NOW MISSING

Manuel Francis of 768 Market street of this city has been missing since yesterday morning. The last seen of him was rowing in a small boat in the bay. He is sixty-five years of age and weighs 140 pounds.

YOUTHFUL RUNAWAY.
Oscar Pick, a lad seven years of age has been arrested as a runaway. He says he lives with his parents somewhere on Seventh street in this city. He strayed away from home and lost his way. He will be returned to his parents if they can be located.

G. LUEDDEMANN,
R. F. D., 29 LOS GATOS.

"POP" SLOAN PASSES AWAY

Favorite Citizen of San Francisco
Dies at His Alameda Home.

John Sloan, a well known San Franciscoan, died yesterday in Alameda, where he had resided since the fire. Mr. Sloan was a native of St. John, New Brunswick, 72 years of age. In the early fifties he came to California by way of Panama and established himself as a ship chandler. Known as "Pop" Sloan, he was universally liked. He was youthful to the end, always ready for a dance, song or story. His cheerful ways made him a favorite among thousands of acquaintances.

A widow and three children, J. R. and C. B. Sloan and Mrs. P. M. Thomas, survive him. He will be buried on Wednesday afternoon at 2 o'clock by the San Francisco lodge of Elks from the rooms of the Oakland Elks on Fourth street. He was prominently identified with the Elks, and was also a Mason.

O'Neill & Embree

LATE WITH BULLOCK & JONES.
NOW LOCATED IN OAKLAND.

There is a new haberdashery store in Oakland and it is situated at 855 Broadway, near Ninth street. The two gentlemen who have made their advent in this city to be numbered among the new permanent business houses in town are Messrs. O'Neill & Embree, who have been connected for a long period of years with the well known firm of Bullock & Jones Company of San Francisco. They are practical men in their line and come to Oakland with a reputation of being "top-notchers" in the goods they handle. They will maintain the reputation of the firm they formerly were employed with, by having as fine a stock of men's furnishings as can be found in any store west of Chicago and will make a specialty of making shirts to order, and they solicit the trade of particular people, for in this regard they are sure to please. Both gentlemen have an extensive acquaintance, being widely and favorably known in this section and their many friends will be glad to learn of their advent in business for themselves and wish them all the success possible.
